\* **20200681 Powder Springs Streetscape - Sandtown Rd to S Marietta Parkway  
Project Parcel 5 - Eagle Lube Land, LLC - 686 Powder Springs Street:**

Motion authorizing acquisition of a portion of property and easements at 686 Powder Springs Street for the Powder Springs Streetscape - Sandtown Rd to S Marietta Parkway Project in exchange for \$18,500.00 and the stipulations listed:

1. Project activity shall not disturb the slope or grade of the lot or alter the subsurface in such a way that the structural integrity of the lot is harmed.
2. Parking Area:
  - a. The owner and any successors in title shall have access over and across the existing parking or access areas which become situated within the future right of way. The owner/successor in title shall have access and use rights of ingress and egress to utilize such area for parking and restriping as deemed necessary by the Owner but only after review and approval by the City of any areas contained within the right-of-way. The City shall maintain all areas within the future right of way.
  - b. Construction activity shall not eliminate any existing parking spaces on site. The temporary easement area and future right of way overlapping any existing parking lot area, shall be returned to its original or better condition including being paved and providing for parking of vehicles.
3. All existing stormwater drainage piping along the Parcel's boundary and frontage shall be maintained, re-constructed or replaced with adequate facilities to manage runoff in an adequate or better condition as exists today.
4. Project activity shall not include staging or storage of porta potties, vehicles, or equipment on the property at any time.
5. All grassy areas affected shall be reseeded with true fescue seed and covered with straw to assist in the sewing of the seed. In any event, the grassy areas shall be returned to as good as or better condition as existing prior to the Project activity. More specifically,
  - a. All disturbed areas must be seeded, fertilized, and mulched as soon as the final grade is achieved. Also, these disturbed areas must be protected until permanent vegetation is established.
  - b. A double row of Georgia DOT type "c" silt fence or an approved high- performance silt fence must be installed between the land disturbing activities and the structure, right of way or private access points in an appropriate location.
6. All Temporary Easements and Driveway Easements will terminate upon completion and acceptance of the same by the City of Marietta.

\* **20200682 Bouldercrest Drive Sidewalk Enhancements  
Project Parcel 10 - Sterling M. Smith - 571 Bouldercrest Drive**

Motion authorizing acquisition of the easements at 571 Bouldercrest Drive from Sterling M. Smith for the purpose of constructing the Bouldercrest Drive Sidewalk Enhancements project in exchange for \$660.00 and the stipulation as listed below.

1. Take out pine tree.

\* **20200683**      **Bouldercrest Drive Sidewalk Enhancements**  
**Project Parcel 3 - Ricky T. Payne and Dianne Payne - 495 Bouldercrest Drive**

Motion authorizing acquisition of the easements at 495 Bouldercrest Drive from Ricky T. Payne and Dianne Payne for the purpose of constructing the Bouldercrest Drive Sidewalk Enhancements project in exchange for \$1,967.00.

\* **20200684**      **540 Powder Springs Street**

Motion to authorize the acquisition of property owned by Club Office Park Condominium Association on behalf of the City of Marietta by means of eminent domain. A description of the interest to be acquired is attached hereto and incorporated herein by reference, including the legal description of the property and a survey of such property. The city attorney is hereby authorized and directed to take any and all action necessary to acquire such property by virtue of eminent domain, including the right to file any appeals in such case. The Order Authorizing Condemnation attached is incorporated herein by reference. In addition, the City Attorney is given authority to negotiate and close on the property at a price not to exceed \$30,000.00.

City of Marietta  
Department of Development Services  
205 Lawrence Street, Marietta, Georgia 30060

RE: Stipulation Letter: Application for Rezoning; Application Z 2020-07 Cunningham Road.  
Applicant: Venture Communities, LLC  
Property Owners: Steven A. Cunningham, Carolyn Swanson and Harry W. Cunningham  
Property: 8.782 acres, more or less, located on the west side of Cunningham Road  
at 1520, 1540 & 1560 Cunningham Road, Marietta, Georgia 30008; Land Lots 8 & 9,  
17th District, 2nd Section, Cobb County, Georgia.

Dear Rusty and Shelby:

Venture Communities, LLC, the Applicant (hereinafter "Applicant") in the Application for Rezoning with regard to approximately 8.782 acres, more or less, located on the west side of Cunningham Road at 1520, 1540 & 1560 Cunningham Road, Marietta, Georgia 30008; Land Lots 8 & 9, 17th District, 2nd Section, Cobb County, Georgia (hereinafter the "Property" or the "Subject Property") is pleased to present the following information for your consideration. After meeting with planning and zoning staff and various City of Marietta departmental representatives, reviewing the Staff Comments and Recommendations, reviewing the uses of surrounding properties, we are submitting this letter of agreeable stipulations and conditions which, if the Application for Rezoning is approved, as submitted, shall become a part of the grant of the requested zoning and shall be binding upon the Subject Property.

The proposed stipulations are as follows:

1. Applicant seeks rezoning of the Subject Property from the existing zoning category of R-2 Residential to the proposed zoning category of PRD-SF per the City of Marietta ("City") ordinances for the construction of Fee Simple Townhome, specific to the original Site Plan prepared by BH&D Engineering, Inc. dated May 11, 2020 and then revised by BH&D Engineering, Inc, revision dated July 10, 2020. A reduced copy of the revised Site Plan from April 30, 2019 is attached hereto as Exhibit "A" and incorporated herein by reference.
2. The Subject Property shall be developed for a residential community consisting of a maximum of fifty-nine (59) townhomes. The entire site is comprised of 8.782+/- acres and is planned for a total of 59 homes or a maximum density of 6.7 units per acre.

3. Applicant agrees the minimum house size for the homes in the proposed development shall be 1,700 square feet of heated and cooled living space. It is anticipated that the typical product constructed will range from 1,850 to 2,450+ square feet of heated and cooled living space.
4. Homes within the proposed community shall be substantially similar in style and architecture to the elevations attached hereto as Exhibit "B". All homes will have similar front elevations and shall, as a general rule, use a combination of masonry (i.e. brick, stone or stacked stone or any combination thereof) and stucco, cement fiber board & batten, cement lap siding, cement shake or cedar shake shingles or combination thereof. Side and rear elevations may also utilize masonry (i.e. brick, stone, stacked stone or any combination thereof) as well as stucco, cement fiber board & batten, cement lap siding, cement shake or cedar shake shingles or combination thereof.
5. The proposed community shall have public streets to be maintained by the City/County after the community is released to the City upon completion of the Applicant maintenance period. All driveways shall be constructed in such a manner as to minimize parking in fronts of homes and homeowners will be instructed to use designated off-street parking when driveways are full of vehicles. Adequate off-street parking shall be provided in accordance with City standards. All streets and off-street parking shall be constructed and maintained to City Department of Transportation ("City DOT") standards.
6. Applicant agrees to the creation of a mandatory homeowners association ("HOA"). The HOA shall be solely responsible among other things, strict architectural control, the upkeep and maintenance of all front, rear and side yards of all homes, common areas, amenities, and amenity areas; including the entrance areas, pavilion, dog park, Open Space (see Site Plan Exhibit "A"), mail kiosk, boundary buffers, fencing, off-street parking and other items so constructed by the Applicant.
7. Additionally, and in conjunction with the creation of the mandatory HOA, Applicant agrees to the recording and enforcement of protective covenants which will contain covenants, rules, and regulations applicable to the proposed community.
8. All homes shall have a minimum of a 2-car garage. Garages shall be primarily used for the parking of vehicles and shall not be converted to other uses. The Applicant shall include this restriction in the covenants to be enforced by the HOA. In addition, the HOA shall be empowered by the covenants to discourage any parking in front of homes (except in designated off-street parking areas) and to encourage, whenever possible, that homeowners park cars in the garage. The HOA shall have authority to issue monetary fines to homeowners for violations of these covenants. It is further understood; the Applicant shall be permitted to utilize the garage of the model home as the sales office for the community, if Applicant so desires. Prior to the issuance of a permanent certificate of occupancy for the model home, the sales office will be converted to garage space.

9. The entrance signage for the proposed community shall be ground based, monument-style signage, and shall consist of brick, stone, stacked stone, or combinations thereof, with accents architecturally consistent with the proposed homes.
10. Landscaping of the entrance areas as well as the frontage of the proposed community along all public streets, shall be professionally designed by a registered landscape architect and professionally implemented, which shall include the installation of an irrigation system, where appropriate. Maintenance of the entrance area and public street frontage at the entrance shall be by the mandatory HOA as set forth in the declaration of covenants, easements, and restrictions. All detention ponds shall be professionally landscaped in accordance with any applicable City standards.
11. The submission of a Landscape Plan, designed by a registered landscape architect, during Plan Review process which shall be subject to staff review and approval and which shall include the sodded yards throughout the residential development and irrigated, as necessary.
12. Any streetlights installed within the proposed community will comply with the current City of Marietta Street Lighting Ordinance and shall be environmentally sensitive with down lighting.
13. All utilities servicing the residences within the proposed community shall be underground.
14. Electric and communications transformers, all mechanical and HVAC equipment and all trash and/or garbage receptacles shall be enclosed and/or concealed from view through landscaping or similar measures as long as such efforts toward shielding or concealment do not interfere with utility placement.
15. Applicant agrees the stormwater management facilities and system, hydrology, stormwater management and downstream considerations including, but not limited to, recommendations regarding the shall be constructed and installed consistent with all requirements of the City of Marietta Public Works and the City Engineer.
16. Per the report from Stephen Modica of Gaia Environmental Consulting, LLC dated on January 31, 2020, as reviewed and accepted by the City indicated there are no state waters on this site and therefore no undisturbed state waters' buffers will be necessary as the Applicant proceeds with a land development plan.
17. Compliance with the recommendations from the City of Marietta Public Works Director and the City Engineer with respect to traffic/transportation issues, including the following:
  - a. Applicant shall construct decel lanes at both entrances as right-of-way ("ROW") which has been given or can be given by Applicant will allow. It appears as if the 50' taper and perhaps some small piece of the actual decel lane is all that can be built at either entrance at this time. Please reference the traffic study performed by A&R Engineering, Inc. dated August 3, 2020 a copy of which has been given to the City ("Traffic Study").

- b. Current Cobb County DOT standards specify that any community in excess of 50 units must have a left turn lane into the community. Per the Traffic Study and in consultation with our civil engineer, Applicant believes there does not exist enough ROW to properly construct the left turn lane into the community at the main entrance or the secondary entrance. Thus, a variance may be necessary regarding both left turn lanes.
18. All setbacks shall be as shown on the referenced Site Plan.
19. Applicant agrees to the installation of interior sidewalks along all interior streets as per the attached Site Plan.
20. Applicant shall construct an open-air pavilion and fire pit with appropriate landscaping for the use and enjoyment of the homeowners. The pavilion shall be constructed per the attached Site Plan adjacent to the Open Space. In addition, a dog park shall be constructed adjacent to the mail kiosk per the attached Site Plan. The pavilion, Open Space and dog park and landscaping associated with these amenities shall be maintained by the HOA.
21. Applicant will need a variance regarding the 25% or 2.2 acres of Open Space per the City ordinance. Currently, the Site Plan has approximately 20% or 1.72 acres of Open Space.
22. All construction vehicles will be parked on-site on the Property at all times. No construction vehicles shall be parked on Cunningham Road or other surrounding streets to the proposed development.
23. Adherence to the following construction hours:
  - a. 7:00 a.m. until 7:00 p.m., Monday through Friday, from October 1st to March 31<sup>st</sup>.
  - b. 7:00 a.m. until 8:00 p.m., Monday through Friday, from April 1 to September 30th.
  - c. 9:00 a.m. until 6:00 p.m. on Saturdays.
  - d. No outside work on Sundays unless approved ahead of time by the City's Director of Development Services.
24. The Director of Development Services shall have the authority to approve minor modifications and revisions as the Development Proposal proceeds through Plan Review process and thereafter, except for those:
  - a. Increase the density of the residential community.
  - b. Violate the City of Marietta Zoning or Developmental Ordinances and Regulations.
  - c. Expressly contravene the existing policies and procedures of the City of Marietta.
  - d. Require the granting of a Waiver or a Variance.

We believe the requested zoning, together with the revised Site Plan and the stipulations set forth herein, is an appropriate use of the Subject Property while taking into consideration the area and existing neighborhoods and residents surrounding the proposed development. The proposed residential community shall be a quality development, shall be compatible with surrounding neighborhoods, and shall be an enhancement to the Subject Property and the community as a whole.

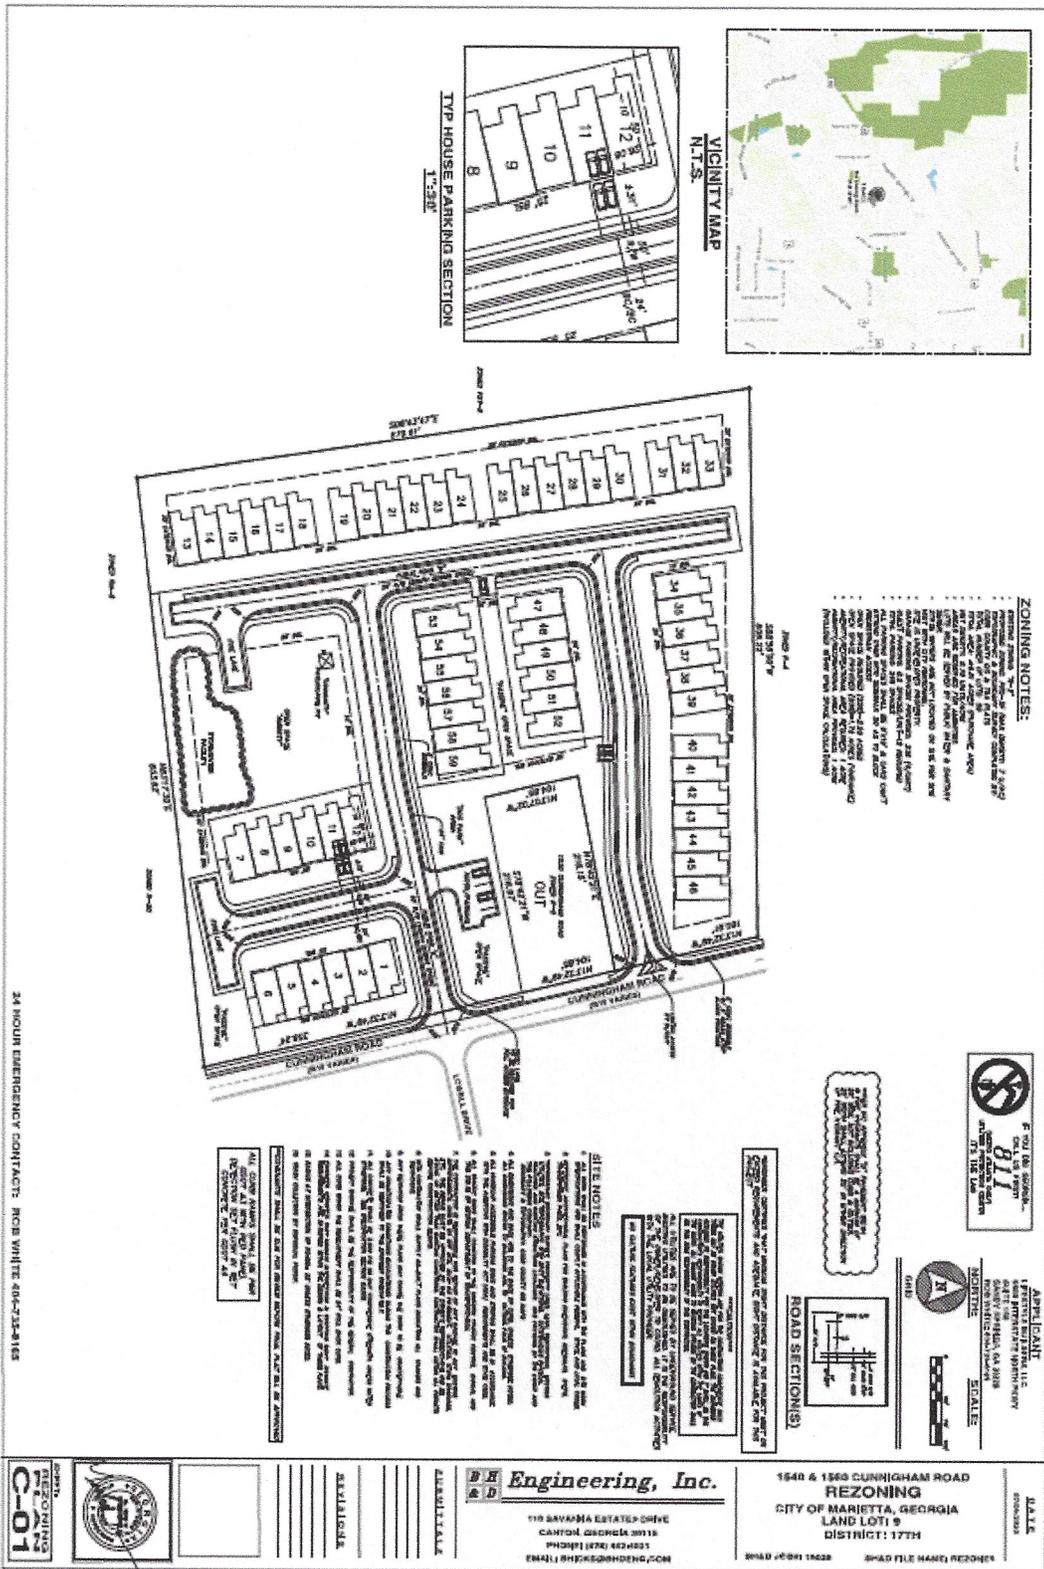

Thank you in advance for your consideration of this project.

Sean G. Randall

## STAFF ANALYSIS

### *Location Compatibility*

Venture Communities, LLC is requesting the rezoning of 8.81 acres at 1520, 1540, & 1560 Cunningham Road to PRD-SF (Planned Residential Development – Single Family) for the construction of fifty-nine (59) new townhomes. The property at 1520 Cunningham Road is 0.5 acres in size and is currently zoned R-20 (Single Family Residential) in Cobb County. The remaining 8.3 acres are within the City of Marietta and zoned R-2 (Single Family Residential – 2 units/acre). There are three (3) single family residences on the property.

The Westview Subdivision, zoned RA-8 (Single Family Residential – Attached), is located immediately to the west; while Hampton Chase, zoned R-4 (Single Family Residential – 4 units/acre) is to the north. A church, zoned R-20 in Cobb County, is directly to the south. Across Cunningham Road to the east is a single-family residential neighborhood zoned RM-12 in Cobb County, as well.

### *Use Potential and Impacts*

The proposed development would consist of fifty-nine (59) townhomes arranged along a new, public roadway with two access points from Cunningham Road. Fifty-nine (59) townhomes on 8.81 acres yields a density of 6.7 units per acre, which is comparable to the surrounding residential area. The proposed density is lower than other, recently approved townhouse developments in the City, as shown below:

Development	Townhouse Units	Acreage	Density	Open Space
Parkside East	59	5.24	11.25	38.9%
Powder Springs Rd 1400	72	8.03	9.0	18.4%
Booth Road Townhomes	51	6.42	7.94	29.6%
Grammercy Park	32	3.29	9.72	12.8%
Wylie Road	150	12.13	12.37	30%
Frey's Gin	123	9.58	12.84	28.5%

Construction under PRD-SF zoning has minimum standards for tract size, lot size, floor area, and impervious surface coverage. Fee simple townhomes built in PRD-SF zones are subject to additional requirements, such as having a 5% rental limit, active and passive recreation components, guest parking spaces, driveways at least twenty (20) feet in depth, and compliance with the “Four-Sided Architecture” requirement. The proposed plan adequately provides the required guest parking spaces and driveway depths required for townhome communities developed under PRD-SF. However, the following variance would be necessary:

- Variance to reduce the minimum lot size requirement from 4,000 sq. ft. to the footprint of the smallest unit for fee simple townhomes. [*§708.09 (H.)*]

Concerning the open space and recreation requirements, the applicant has indicated the entire site will be graded for the development and that there will be 1.72 acres of passive recreation provided (approximately 19.5% of the site), but no active recreational feature would be provided. The applicant has indicated that a 59-unit homeowner's association could not afford the maintenance expense an active amenity requires. As a result, the following variances are being requested:

- Variance to waive the active recreation feature. [§708.09 (B.2.i)]
- Variance to waive the 25% open space requirement to allow the entire site to be disturbed. [§708.09 (H)]

Marietta's Comprehensive Plan, last updated in October 2017, designates the future land use (FLU) of these parcels as Medium Density Residential (MDR). Properties with a FLU of MDR are appropriate for single family detached homes, clustered housing, and townhomes with densities ranging from five (5) to eight (8) units per acre. The requested PRD-SF zoning at a density of 6.7 units/acre is consistent with and supported by the City's Comprehensive Plan.

### *Environmental Impacts*

Most of the site was wooded until sometime in the 1990s when most of the trees were cleared. The vegetation that has taken its place is not mature and contains a lot of invasive shrubbery. City maps indicate state waters running from north to south; however, after numerous site visits, City Engineering staff and a private consultant determined no state waters are present. The proposed plan by Venture Communities will again clear the site of all vegetation. However, the resulting development will be expected to comply with the Tree Protection and Landscaping Ordinance as well as the City's stormwater requirements.

### *Economic Functionality*

The subject property has contained at least two homes on it since the 1950s; and currently there are three residences on the 8.81 acres. This translates to a density of 0.34 units/acre, which is low for a suburban environment. While the property is functional as currently zoned, the property could support the proposed higher density, which is similar to other developments in the surrounding area.

### *Infrastructure*

This proposed development would have new public streets that would comply with the required minimum width of fifty (50) feet and would have internal sidewalks. Sidewalks are also shown along the Cunningham Road property frontage and would fill in a large, existing gap in sidewalk in this area. Because the proposed neighborhood contains more than fifty-one (51) units, two vehicular access points to arterial or collector roads are required. Although Cunningham Road functions as a collector road, the City Thoroughfare Map classifies it as a local road. As a result, the following variance is required:

- Variance to allow a single-family development with more than 51 dwelling units provide two access points to a local street, rather than arterial or collector street. [§730.01 (A)]

A 150-foot acceleration lane and a 150-foot deceleration lane with appropriate tapers will be required by Public Works but is not shown on the plan. A variance would be required to omit these features.

### *Overhead Electrical/Utilities*

There are overhead utility lines on the opposite side of Cunningham Road, so there should be no conflicts with new street trees or buildings. All new utilities for the development will be required to be underground.

### *History of Property*

This property, except for 1520 Cunningham Road, was annexed into the City of Marietta in 2005 and rezoned from R-20 to R-2 (Z2005-31). The purpose of the annexation was not to develop the property but to make another property across Cunningham Road (Crosswinds Subdivision) eligible for annexation and development in the City limits.

### *Historical Impacts*

There is no indication that any historical structures or features are located at this site.

*Other Issues*

The PRD-SF zoning district is intended to bring cohesiveness and resourcefulness when it comes to land planning techniques for the city and allows both detached and attached residential units. PRD-SF is a site-specific zoning, which requires City Council approval of a detailed plan prior to beginning construction. Detailed plans, which include a site plan, tree plan, and building elevations, must be submitted to Council by way of the Judicial Legislative Committee. The plan approved with the rezoning will become the General Plan.

---

## ANALYSIS & CONCLUSION

Venture Communities, LLC is requesting the rezoning of 8.81 acres at 1520, 1540, & 1560 Cunningham Road to PRD-SF for the construction of fifty-nine (59) new townhomes and would include the annexation of 0.5 acres from Cobb County. The properties are currently zoned R-20 in Cobb County and R-2 in the City and currently contain three (3) single family residences. Surrounding properties are also zoned residential and include RA-8, R-4, R-20 (Cobb), and RM-12 (Cobb).

The proposed development would be arranged along a new, public roadway with two access points from Cunningham Road. Fifty-nine (59) townhomes on 8.81 acres yields a density of 6.7 units per acre, which is comparable to the surrounding residential area. The proposed density is lower than other, recently approved townhouse developments in the City.

The following variances would be necessary to develop the property as shown on the submitted plan:

1. Variance to waive the active recreation feature. [§708.09 (B.2.i)]
2. Variance to waive the 25% open space requirement to allow the entire site to be disturbed. [§708.09 (H)]
3. Variance to reduce the minimum lot size requirement from 4,000 sq. ft. to the footprint of the smallest unit for fee simple townhomes. [§708.09 (H)]
4. Variance to allow a single-family development with more than 51 dwelling units provide two access points to a local street, rather than arterial or collector street. [§730.01 (A)]
5. Variance to waive the required acceleration and deceleration lanes.

Detailed plans, which include a site plan, tree plan, and building elevations, must be submitted to Council by way of the Judicial Legislative Committee. The plan approved with the rezoning will become the General Plan

Marietta's Comprehensive Plan designates the future land use (FLU) of these parcels as Medium Density Residential (MDR). Properties with a FLU of MDR are appropriate for single family detached homes, clustered housing, and townhomes with densities ranging from five (5) to eight (8) units per acre. The requested PRD-SF zoning at a density of 6.7 units/acre is consistent with and supported by the City's Comprehensive Plan.

## DATA APPENDIX CONTINUED

### *COBB COUNTY WATER & WASTEWATER*

#### *DRAINAGE AND ENVIRONMENTAL CONCERNS*

Does flood plain exist on the property:	No
What percentage of the property is in the flood plain?	N/A
What is the drainage basin for the property?	Olley Creek
Is there potential for the presence of wetlands as determined by the U.S. Environmental Protection Agency?	Yes
If so, is the use compatible with the possible presence of wetlands?	No
Do stream bank buffers exist on the parcel?	No
Are there other topographical concerns on the parcel?	No
Are there storm water issues related to the application?	No
Potential presence of endangered species in the area?	No
<ul style="list-style-type: none"> <li>• Full site development plans required (Cobb Water and Sewer Authority approval required).</li> <li>• A second entrance will be required based on the number of units proposed (as shown on 7/10/20 email update)</li> <li>• All streets must comply with City standards</li> <li>• Sidewalks required along frontage. Some interior sidewalks as proposed will require crosswalks.</li> <li>• Acceleration and deceleration lanes will be required</li> </ul>	

#### *TRANSPORTATION*

What is the road affected by the proposed change?	Cunningham Road
What is the classification of the road?	Collector
What is the traffic count for the road?	4,100 (2016 Cobb)
Estimated # of trips generated by the proposed development?	Daily 287
Estimated # of pass-by cars entering proposed development?	AM 28
Do sidewalks exist in the area?	PM 30
Transportation improvements in the area?	0
If yes, what are they?	Yes
<ul style="list-style-type: none"> <li>• Center left turn lane along Cunningham Road connecting with center lane to south and north is recommended.</li> </ul>	

- Accl/decel lane is required per City Code; however, Transportation is willing to waive the Accl lane requirement if the developer agrees to the center lane construction above.
- 25' deceleration lane taper to begin at southern property line of out parcel.
- 5' sidewalk with 2' grass strip required along entire parcel frontage of Cunningham Road.
- Recommend developer continue sidewalk improvements across outparcel frontages.
- Request 15' right of way donation across entire parcel frontage.
- Entirety of Cunningham Road to the south of this parcel is owned and maintained by Cobb DOT - Cobb DOT approval required.

***EMERGENCY SERVICES***

Nearest city or county fire station from the development?	54 Chestnut Hill
Distance of the nearest station?	1.9 Miles
Most likely station for 1 <sup>st</sup> response?	54
Service burdens at the nearest city fire station (under, at, or above capacity)?	under

**Comments:**

- All units will be required to be protected throughout by an approved automatic fire sprinkler system per Marietta City Code 2-6-140.

***MARIETTA POWER - ELECTRICAL***

Does Marietta Power serve this site?      Yes \_\_\_\_\_      No   x  

If not, can this site be served?      Yes \_\_\_\_\_      No   x  

What special conditions would be involved in serving this site?

*Not Marietta Power territory*

**REQUIRED INFORMATION**

Applicant must submit the following information by 4:00 p.m. on or before the application deadline. Failure to submit any item, or any additional information that might be requested, on or before the deadline will result in the application being held until the next scheduled meeting of the Planning Commission.

1. The original application must be submitted with ALL ORIGINAL SIGNATURES - Copies of the application or signature(s) will NOT be accepted. ALL rezoning submittals must include proposed plans, supplementary material, etc. in Adobe Acrobat on computer disk.
2. Legal Description. Legal description must be in a WORD DOCUMENT.
3. Application fee (\$500)
4. Copy of the deed that reflects the current owner(s) of the property.
5. Copy of current tax bill showing payment or a certification from the City of Marietta Tax Office stating that taxes have been paid.
6. Site plan, plat or survey prepared by an architect, engineer (P.E. or Civil Engineer), Landscape Architect or Land Surveyor whose state registration is current and valid, and whose seal shall be affixed to the site plan/plat/survey.

**Copies Required: One (1) - (8 1/2" x 11") -or- (11" x 17") drawn to scale. Optional Additional Plat size: (24"x 36").**  
 If providing (24"x 36") then 5 copies REQUIRED.

The following information must be included:

- Specific use or uses proposed for the site
- Acreage, bearing and distances, other dimensions, and location of the tract(s)
- Locations, sizes and setbacks of proposed structures, including the number of stories and total floor area
- Detention/retention areas, and utility easements
- Public or private street(s) - right of way and roadway widths, approximate grades
- Location and size of parking area with proposed ingress and egress
- Specific types and dimensions of protective measures, such as buffers
- Landscaping
- Wetlands, stream buffers, and 100 year floodplain

7. A detailed written description of the proposed development/project must be submitted with the application.

**CAMPAIGN CONTRIBUTIONS**

The Owner and Applicant herein certify that he/she has has not made campaign contributions or gifts aggregating \$250.00 or more to the Mayor, any member of Council or any member of the Planning Commission within the two (2) years preceding the filing of the this application.

**TO: Marietta Daily Journal**

**FROM: City of Marietta**

**RUN AD DATE: July 17, 2020**

**CITY OF MARIETTA  
PUBLIC NOTICE OF REZONINGS, SPECIAL LAND USE PERMITS, and CODE AMENDMENTS**

The City of Marietta hereby gives notice that a public hearing will be held on the following by the Planning Commission on **Tuesday, August 4<sup>th</sup>, 2020, 6:00 P.M.**, City Hall, for a recommendation to the City Council at their meeting on **Wednesday, August 12<sup>th</sup>, 2020, 7:00 p.m.**, City Hall, for a final decision to be made.

**Z2020-07 [REZONING] VENTURE COMMUNITIES, LLC** is requesting the rezoning of 8.782 acres located in Land Lot 9, District 17, Parcels 0040 & 0160 of the 2<sup>nd</sup> Section, Cobb County, Georgia, and being known as 1520, 1540, & 1560 Cunningham Road from R-20 (Single Family Residential – County) and R-2 (Single Family Residential – 2 units/acre – City) to PRD-SF (Planned Residential Development – Single Family). Ward 2B.

A description and plat of the property sought for the rezoning, special land use permit, and variances are on file in the Planning and Zoning Office, City Hall, and is available for inspection between 8:00 A.M. and 5:00 P.M., Monday through Friday. Anyone wishing to attend may do so and be heard relative thereto. You may also review the property file at [www.mariettaga.gov](http://www.mariettaga.gov) and enter the case # in the search box.

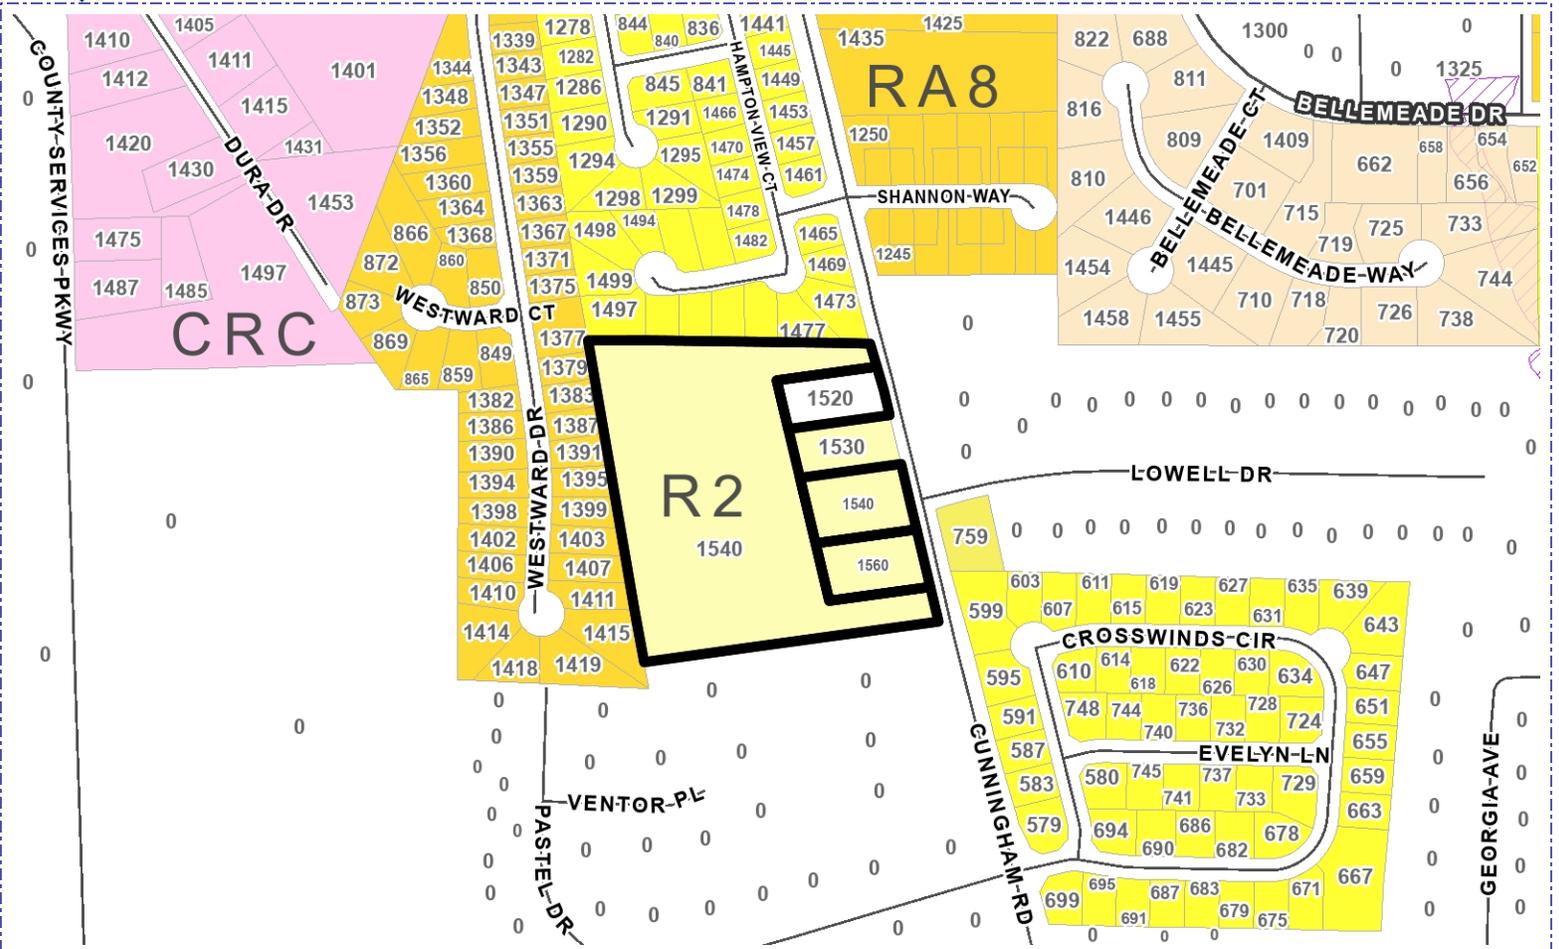

**For additional information including questions about virtual participation, please call the Planning and Zoning Office (770) 794-5669.**

**Accessibility to Meetings:** If you believe you may need the City/BLW to provide special accommodations in order to attend/or participate in any of the above meetings, please call ADA Coordinator at 770-794-5558 no later than 48 hours before the date of the above meeting.

## STAFF ANALYSIS

### *Location Compatibility*

The applicant is requesting to rezone 888 & 898 Powder Springs Street, currently zoned R-2 (Single Family Residential – 2 units/acre) to PRD-SF (Planned Residential Development – Single-Family). The properties – totaling 3.15-acres - are located at the corner of Powder Springs Street and Hickory Drive and within the City’s Commercial Corridor Overlay District - Tier B and Dobbins Air Reserve Base AICUZ Overlay District – Accident Potential Zone II (APZ-II). The surrounding properties are also zoned R-2 and within the Commercial Corridor Overlay District - Tier B. Despite the designation within the Commercial Corridor Overlay District, the site has always functioned as a residential property. The APZ-II is identified as the area with that has the least but measurable risk of accidents within the runway path from Dobbins ARB.

### *Use Potential and Impacts*

The applicant is proposing to develop eleven (11) single family detached units within a 3.15-acre tract, which will yield a density of 3.49 units/acre. A new private road would be constructed to provide access to the new homes off of Hickory Drive. The new development would include required open space, additional parking near the entrance, and a mail kiosk.

The plan submitted is a general plan that is required with the rezoning application; and based on the information provided, the overall design of the subdivision appears to generally comply with the PRD-SF standards. The minimum lot size is approximately 5,400 square feet and the minimum floor area is 1,800 square feet. The open space area is at 0.87 acres, approximately 27.6% of the total site.

The proposed homes will have two-stories and some units will include a basement. Although there were no elevations submitted, the applicant has indicated that the exterior facades will include four-sided brick and/or stone with hardy plank siding; and each home will have a patio in the rear. A detailed plan will be submitted for City Council approval prior to site development and will include a more detailed site plan, tree plan, and architectural elevations.

The City’s Comprehensive Plan has designated the future land use for the property as Low Density Residential, LDR. LDR is appropriate for detached residential homes at a density up to four (4) units per acre. As compared to the surrounding communities, the proposed development would have a slightly higher density, which would be an appropriate transition between existing communities and a highly travelled thoroughfare. PRD-SF is listed as a compatible zoning and this proposal is supported by the City’s Comprehensive Plan.

### *Environmental Impacts*

The property is heavily wooded and would be significantly cleared during the development process. There is a pond on the adjacent property to the east that is protected by state and city buffers that extend into the rear portion of lots four (4) to eight (8). Since the lot was platted after 2006, the property would not be eligible for city stream buffer variances. There is also the potential for wetlands on the site.

### *Economic Functionality*

This area of the city is highly desirable for residential use and is easily accessible. The current R-2 zoning would allow six (6) single family homes on 3.15 acres.

Although the properties are shown as two (2) separate parcels, they were recently combined into one parcel known as 888 Powder Springs Street. Prior to the combination, 898 Powder Springs Street was a substandard lot created from an illegal subdivision years ago.

### *Infrastructure*

The proposed new road into the subdivision would intersect with Hickory Drive and is shown to meet all standards for a local road in Section 730 of the zoning ordinance. Sidewalks are shown internally along one side of the development and would be required to continue along the Hickory Drive and Powder Springs Street frontages.

The proposed new road intersects very close to the intersection of Hickory Drive and Powder Spring Street. The Public Works Department would require the developer to demonstrate adequate line of sight at the entrance and would also require a traffic study. Further, it has been noted that the stormwater outfall may be a challenge due to the topography of the site.

The serving elementary school would be Hickory Hills. Currently, Hickory Hills is below capacity; however, the serving middle and high schools are above capacity. There is a projected number of five (5) students to be added from proposed development.

Provision of water and sewer is not anticipated to be a problem.

### *Overhead Electrical/Utilities*

There are overhead utilities along Powder Springs Street in front of the subject property. However, the applicant is proposing a 25-foot landscape buffer providing a safe distance between the overhead utilities and proposed buildings.

### *History of Property*

There are no variances, special land use permits or rezonings associated with the subject property.

### *Other Issues*

Since single family residences are exempt from the Commercial Corridor Design Overlay District – Tier B standards and would not apply to the proposed development. However, the developer will be required to notify Dobbins ARB prior to development.

PRD-SF is a site-specific zoning which requires a general plan for the rezoning application. However, at a later time the City Council will be required to review and approve the detailed plan, including site layout plan, tree plan, and architectural elevations, prior to construction.

The following standards, which have historically been applied to all PRD-SF developments, are technically only applicable to attached dwelling neighborhoods. As a result, the following **would not be required** of this detached neighborhood, unless specifically stipulated:

- a) A mandatory homeowners association shall be created that will be responsible for the upkeep and maintenance of all front yards and common areas including all fencing, landscaping, amenities and buffers, and shall include architectural control oversights for the development. Those projects containing ten (10) units or less, and considered redevelopment, conversion or remodeling of existing units shall be exempt from this requirement.*
- b) Materials to be used on exterior facades of all buildings shall include brick, stone, stucco (not EFS type) or fiber-cement siding, or combinations of those materials. No vinyl, aluminum or metallic siding may be used.*
- c) The townhouses shall be “for sale” only, and no more than five percent (5%) of all the homes within the residential development shall be allowed to be renter occupied at any time.*
- d) The development shall be constructed and governed in conformity with the requirements of the Georgia Condominium Act (O.C.G.A. §44-3-70, et seq.). A Declaration of Condominium shall be submitted and recorded in compliance of this act.*
- e) All townhouses shall have two-car garages, and the parking pads/driveway in front of the garage shall be a minimum of 20 feet in length in order to accommodate two additional cars. The garages shall be used for the parking and storage of vehicles and may not be enclosed to provide for additional residential space. A recital of this requirement shall be contained within the Covenants to ensure enforcement.*

- f) A guest parking area shall be provided at a ratio of 0.2 spaces per dwelling unit.*
- g) The development shall comply with all recommendations from the City of Marietta Public Works Department with respect to hydrology, stormwater management, downstream considerations and any donation and/or conveyance of right-of-way that is deemed necessary.*
- h) A 150-foot acceleration lane and a 150-foot deceleration lane with appropriate tapers shall be constructed if required by the Public Works Department.*
- i) A recreation area shall be provided at a ratio of 1 acre per 50 units (or a proportional percentage thereof) with a minimum of 10,000 square feet provided. Such area shall be developed with at least one passive recreational feature, such as a walking trail, pavilion, gazebo or picnic area, and at least one active recreational feature, such as a swimming pool, playground or tennis courts. Active recreational areas must be outside of any floodplain area and located in such a manner that at least 75% of the townhouses are within 300 feet, as measured from the building footprints. Any recreation area, whether passive or active, must be located in an area with a slope of less than 15%; however, all recreation areas must meet ADA requirements for accessibility. Active recreational areas must be improved through the use of terracing or other techniques to provide a usable area, such that at least 25% of the entire recreational area shall have a slope of no greater than 3%.*

---

## ANALYSIS & CONCLUSION

The applicant is requesting to rezone 888 & 898 Powder Springs Street, currently zoned R-2 to PRD-SF. These 3.15-acres are located at the corner of Powder Springs Street and Hickory Drive. Surrounding properties contain single family detached homes that are also zoned R-2.

The applicant is proposing to develop eleven (11) single family detached units within a 3.15-acre tract, which will yield a density of approximately 3.49 units/acre. The proposed homes will have two-stories and some units will include a basement. Although there were no elevations submitted, the applicant has indicated that the exterior facades will include four-sided brick and/or stone with hardy plank siding; and each home will have a patio in the rear. A detailed plan will be submitted for City Council approval prior to site development and will include a more detailed site plan, tree plan, and architectural elevations. Otherwise, the overall design of the subdivision appears to generally comply with the PRD-SF standards.

The property is heavily wooded and would be significantly cleared during the development process. There is a pond on the adjacent property to the east that is protected by state and city buffers that extend into the rear portion of lots four (4) to eight (8). There is also the potential for wetlands on the site.

The proposed new road accesses Hickory Drive very close to the intersection of Hickory Drive and Powder Spring Street. The Public Works Department would require the developer to demonstrate adequate line of sight at the entrance and would also require a traffic study.

The City's Comprehensive Plan has designated the future land use for the property as Low Density Residential, LDR. LDR is appropriate for detached residential homes at a density up to four (4) units per acre. As compared to the surrounding communities, the proposed development would have a slightly higher density, which would be an appropriate transition between existing communities and a highly travelled thoroughfare. PRD-SF is listed as a compatible zoning and this proposal is supported by the City's Comprehensive Plan.

Approved by: 

**DATA APPENDIX**

***CITY OF MARIETTA - WATER***

Is a water line adjacent to the property?	Yes
If not, how far is the closest water line?	N/A
Size of the water line?	6" in Hickory with a 6" and 12" in Powder Springs St.
Capacity of the water line?	A fire flow test may be required
Approximate water usage by proposed use?	Not provided

***CITY OF MARIETTA - WASTEWATER***

Is a sewer line adjacent to the property?	Yes
If not, how far is the closest sewer line?	N/A
Size of the sewer line?	8" in Hickory Dr
Capacity of the sewer line?	A.D.F Peak
Estimated waste generated by proposed development?	Not provided
Treatment Plant Name?	Cobb County
Treatment Plant Capacity?	Cobb County
Future Plant Availability?	Cobb County

**DATA APPENDIX CONTINUED**

***DRAINAGE AND ENVIRONMENTAL CONCERNS***

Does flood plain exist on the property:	No
What percentage of the property is in the flood plain?	N/A
What is the drainage basin for the property?	Olley Creek
Is there potential for the presence of wetlands as determined by the U.S. Environmental Protection Agency?	Yes
If so, is the use compatible with the possible presence of wetlands?	No
Do stream bank buffers exist on the parcel?	Yes
Are there other topographical concerns on the parcel?	No
Are there storm water issues related to the application?	Yes
Potential presence of endangered species in the area?	No

**Additional Comments:**

- Full site development plans required
- Platted after 2006, so not eligible for city stream buffer variances
- Sidewalk required for frontage and along same side of street as units
- Demonstrate line of sight at entrance
- Stormwater outfall will be difficult based on existing topography

***TRANSPORTATION***

What is the road affected by the proposed change?	Powder Springs St & Hickory Dr
What is the classification of the road?	Arterial
What is the traffic count for the road?	42800
Estimated # of trips generated by the proposed development?	Daily <b>unknown</b> AM PM
Estimated # of pass-by cars entering proposed development?	Unknown
Do sidewalks exist in the area?	Opposite Side of Road
Transportation improvements in the area?	No
If yes, what are they?	

**Additional Comments:**

- Entrance is very close to Powder Springs St, would prefer it shifted as far away as possible from intersection. Consider right in/right out for entrance and a deceleration lane.
- Need a traffic study for the impact of the area.

***EMERGENCY SERVICES***

---

Nearest city or county fire station from the development?	54 Chestnut Hill
Distance of the nearest station?	0.5 Miles
Most likely station for 1 <sup>st</sup> response?	54
Service burdens at the nearest city fire station (under, at, or above capacity)?	under

**Comments:**

Homes could be subject to fire sprinkler ordinance, depends on distances from the property lines and any adjacent structures. Marietta City Code 2-6-140.

***MARIETTA POWER - ELECTRICAL***

---

Does Marietta Power serve this site?      Yes   x                        No           

If not, can this site be served?              Yes                                 No           

What special conditions would be involved in serving this site?

Additional comments:

## **INTRODUCTION TO SPRINGFIELD RESIDENTIAL DEVELOPMENT**

The subject property is 3.15 acres of land located at 888 Powder Springs Street, Marietta Georgia 30064 and 898 Powder Springs Street, Marietta Georgia 30064. The current zoning is R-2. The applicant, Mona Properties Incorporated, is requesting said property to be rezoned to Planned Residential Development - Single Family (PRD-SF) to allow for eleven (11) single family detached dwellings. The Applicant respectfully requests rezoning pursuant to the provisions set forth in the City of Marietta Zoning Ordinance § 708.09.

## **DESCRIPTION OF PROPOSED DEVELOPMENT**

### **1.) Entrance and Border of the Development**

The Springfield Subdivision main entrance will incorporate monuments comprised of square columns, approximate 30 inches X 30 inches X 72 inches high, constructed of brick and/or stone. From Hickory Drive into the Subdivision there will be two (2) square brick and/or stone columns approximate 24 inches X 24 inches X 60 inches high. Along Powder Springs Street, we will build ten to twelve (10-12) brick and/or stone columns approximate 24 inches X 24 inches X 60 inches with a wood privacy fence between the columns. We will also incorporate custom landscaping in front of the columns to allow for subtle up lighting to light and enhance the privacy and aesthetic appeal of this property.

### **2.) Description of the Single-Family Homes**

Springfield Subdivision will include eleven (11) single family detached houses. The development will incorporate a mailbox kiosk with three (3) parking spots (including one handicap space) at the entrance to the subdivision. The single-family homes will be a minimum of 1800 square feet up to approximately 2500 square feet in size. The houses will be two story construction. The majority of the homes will be built on a slab and two or three houses might include a basement depending on the grade and suitability for a particular lot and the demand for the basement option. The exterior of the houses will be four sides brick and stone up to four-feet-high and hardy plank siding above the brick and stone. The roof covering will be Architectural Shingles and all exterior doors and windows will be PVC or aluminum. The subdivision will include concrete driveways, sidewalks and backyard concrete patios. The front yard and backyard of each home will include Bermuda sod with an irrigation system.

### **3.) Springfield Subdivision Site Plan**

The Springfield Subdivision proposed site plan is attached. This unified plan was designed to optimize and foster natural resource conservation and provide neighborhood cohesiveness. It was also designed to conserve and create open space, reduce vehicle congestion by providing a stable, planned development that enhances the greater community. The property will remain underutilized and the proposed redevelopment will not be feasible without the zoning change.

**FROM: City of Marietta**

**RUN AD DATE: July 17, 2020**

**CITY OF MARIETTA  
PUBLIC NOTICE OF REZONINGS and VARIANCES**

**The City of Marietta hereby gives notice that a public hearing will be held to give consideration to the following rezoning request at the City Council meeting held on Wednesday, August 12th, 2020, 7:00 p.m., City Hall, for a final decision to be made.**

**Z2020-11 [REZONING] ALI GHADRAN (STEPHEN THOMPSON)** are requesting the rezoning of 3.15 acres located in Land Lots 140 & 141, District 17, Parcel 0200 of the 2<sup>nd</sup> Section, Cobb County, Georgia, and being known as 888 (& 898) Powder Springs Street from R-2 (Single Family Residential – 2 units/acre) to PRD-SF (Planned Residential Development – Single Family). Ward 2B.

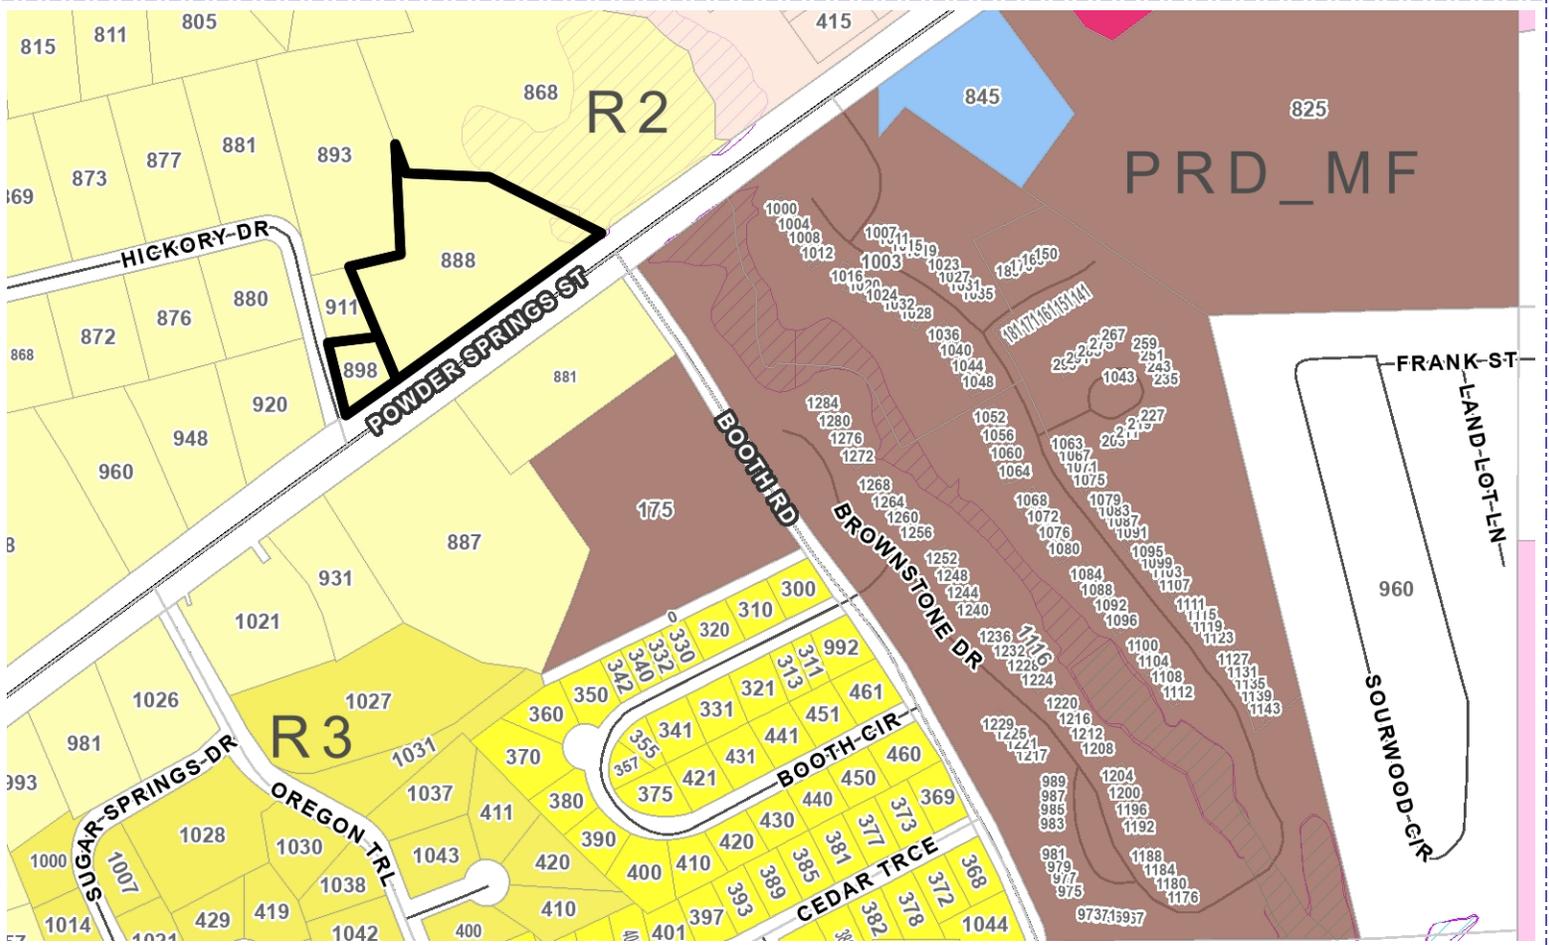

A description and plat of the property sought for the rezoning, special land use permit, and variances are on file in the Planning and Zoning Office, City Hall, and is available for inspection between 8:00 A.M. and 5:00 P.M., Monday through Friday. Anyone wishing to attend may do so and be heard relative thereto. You may also review the property file at [www.mariettaga.gov](http://www.mariettaga.gov) and enter the case # in the search box.

**For additional information including questions about virtual participation, please call the Planning and Zoning Office (770) 794-5669.**

**Accessibility to Meetings:** If you believe you may need the City/BLW to provide special accommodations in order to attend/or participate in any of the above meetings, please call ADA Coordinator at 770-794-5558 no later than 48 hours before the date of the above meeting.

PROPOSED DEVELOPMENT AND TRAFFIC OPERATIONS  
TECHNICAL MEMORANDUM

To: Mark Rice  
Director of Public Works, City of Marietta

Ali Ghadrhan, Mona Properties Inc.

From: Daniel B. Dobry, Jr., P.E., PTOE, AICP

Date: July 16, 2020

Re: Rezoning for Residential Subdivision  
Mona Properties Inc., City of Marietta, Georgia

Mona Properties Inc. is actively pursuing an application to rezone a 3.146-acre parcel on the east side of the Hickory Drive, north of Powder Springs Street SW/GA 360; Z2020-11. The request is to rezone the parcel from R-2 (Single Family Residential – 2 units/acre) to PRD-SF (Planned Residential Development – Single Family). There will be a single access point on Hickory Drive (right-in/right-out with a deceleration lane) to the proposed residential development.

### Site Map

The location of the property in relation to the area wide roadway network is shown on Figure 1.

Figure 1: Site Location Relative to Adjacent Roadway Network

# Site Plan

The site plan for this proposed development is shown on Figure 2.

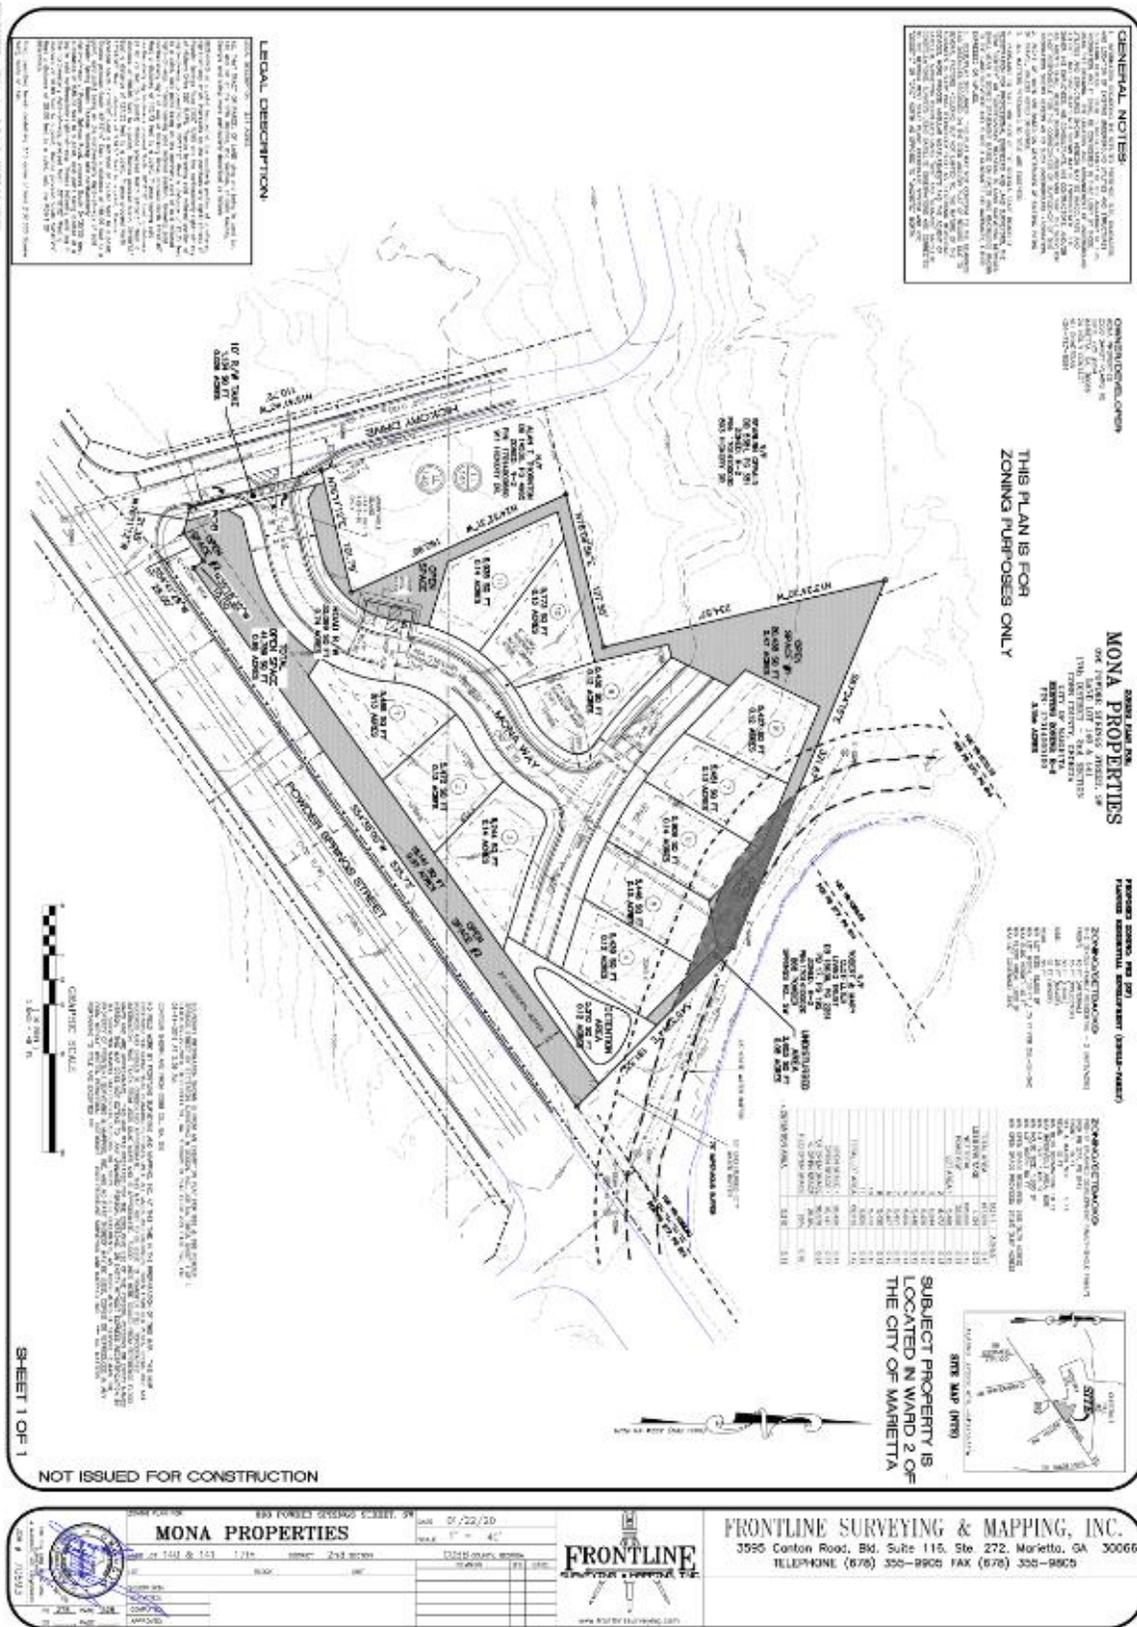

Figure 2: Proposed Development Site Plan

## Trip Generation

The requested rezoning would result in the construction of 11 single family dwelling units. The anticipated number of trips from the proposed develop were estimated using the Institute of Transportation Engineers' Trip Generation Manual, 10<sup>th</sup> edition. The estimated two-way daily plus morning and evening peak hour generated trips are shown in the following table.

Description	LUC	Unit	Quantity	Daily	AM Peak			PM Peak		
				Two-way	Enter	Exit	Total	Enter	Exit	Total
Single Family Detached Housing	210	D.U.	11	136	3	10	13	7	5	12

From the trip generation information the new development is forecasted to have 13 or less cars enter and exit the residential development during both peak hours.

## Site Observations

Hickory Drive is classified by the Georgia Department of Transportation (GDOT) as a local road with 1-lane in each direction and a posted speed limit of 30 mph at the proposed development. In the vicinity of the planned entrance to the subdivision Hickory Drive has a "No Thru Street" sign and a No Trucks symbol sign installed. In addition slightly further to the north is a speed hump. Powder Springs Street SW/GA 360 is classified by GDOT as a minor arterial with 2-travel lanes in each direction and a center turn lane. The roadway has a posted speed limit of 45 mph.

### A.M. Site Observations

- Powder Springs Street: From approximately 7:45 am to 8:45 am there were 16 eastbound vehicles turning left to proceed northbound onto Hickory Drive. Vehicles did not have to wait long because the traffic traveling westbound on Powder Spring Street was low to moderate with many gaps to make the left turn. There were no more than 2 vehicles at a time in the center turn lane waiting to make the left turn. For westbound Powder Springs Street there were 4 vehicles that made a right turn onto Hickory Drive.
- Hickory Drive: From approximately 7:45 am to 8:45 am there were 6 vehicles making a southbound right turn onto Powder Springs Street and 3 vehicles making a left turn. The right turning vehicles did not have that long to wait because of light traffic. The left turning vehicles typically turned into the center turn lane and then waited for a gap in traffic eastbound to merge. There were no more than 2 vehicles at a time on Hickory Drive waiting to make turns.

Image 1: Hickory Drive north of Powder Springs Street

From Image 1 it is seen that traffic turning onto Hickory Drive from Powder Springs Street will have adequate sight distance to see traffic entering and existing the proposed residential development.

#### P.M. Site Observations

- Powder Springs Street: From approximately 5:00 pm to 6:00 pm there were 16 eastbound vehicles turning left to proceed northbound on Hickory Drive. Vehicles did have to wait for gaps in traffic because the traffic traveling westbound on Powder Spring Street was moderate to heavy. Primarily the gaps in traffic were provided by the traffic signal at Chestnut Hill Road metering westbound traffic. There were no more than 3 vehicles at a time waiting to make the left turn. There was only 1 vehicle traveling westbound that made a right turn onto Hickory Drive.
- Hickory Drive: From approximately 5:00 pm to 6:00 pm there were 24 vehicles making a southbound right turn onto Powder Springs Street. The right turning vehicles did have to wait for gaps in the westbound traffic to make the turn. There were no more than 2 vehicles at a time waiting to make turns. During this time period, 0 vehicles turned left. One potential reason that no driver turned left to proceed eastbound on Powder Springs Street is that traffic from the residential area around Hickory Drive is using the traffic signal at Chestnut Hill Road to make the left turn during Powder Springs Street's red phase.

Image 2: Powder Springs Street facing west

## Operations

With the deceleration lane into the proposed residential development, right turning traffic will be out of the through lane and not impede Hickory Drive traffic. Southbound Hickory Drive queuing traffic at Powder Springs Street will not impede exiting traffic from the development as the exiting traffic is forced to turn right because of the channelization. This exiting traffic is, however, forced to traverse Hickory Drive to Chestnut Hill Road to get to Powder Springs Street even though Hickory Drive is posted as a “No Thru Street”.

## Summary and Conclusions

Mona Properties is requesting to rezone a parcel on the east side of Hickory Drive north of Powder Springs Street to construct an 11 dwelling unit residential subdivision. Impacts to traffic operations are expected to be insignificant for the following reasons:

- ✓ A total of 13 or less cars total cars are entering and exiting during each of the morning and evening peak hours,
- ✓ The residential subdivision entrance will have a deceleration lane so right turning traffic into the subdivision will be out of the Hickory Drive through lane.
- ✓ The entrance will be right-in/right-out so subdivision exiting traffic will not be impeded by southbound Hickory Drive queued at Powder Springs Road.
- ✓ Adequate sight distance is available for both directions of Powder Springs Street to observe entering and exiting operations at the residential subdivision entrance.

Ms. Shelby Little, AICP  
Planning & Zoning Manager  
Department of Planning and Zoning  
City of Marietta  
205 Lawrence Street  
Marietta, Georgia 30060

RE: Application for Rezoning      - Zoning Case No: Z2020-11  
   - Applicant: Ali Ghadrnan  
   - Subject Property: 3.15 Acres, more or less, located at  
   888 and 898 Powder Springs Street, Marietta; Land Lots  
   140 and 141, 17<sup>th</sup> District, 2<sup>nd</sup> Section, Cobb County, Georgia

Dear Ms. Little:

Pursuant to the May 5, 2020 Planning Commission meeting request, and after communications with City Staff and reviewing the City's Rezoning Application, we respectfully submit this proposed letter of agreeable stipulations and conditions which, if the Application for Rezoning is approved, as submitted, shall become a part of the grant of the requested zoning and shall be binding upon the Subject Property. The proposed stipulations are as follows:

- (1) Applicant seeks rezoning of the Subject Property from the existing zoning classification of R-2 (Single Family Residential – 2 units/acre) to the proposed zoning classification of PRD-SF (Planned Residential Development – Single Family), as provided in the proposed Zoning Plan and submitted by the Applicant to the City of Marietta with the Application for Rezoning. A reduced copy of the Zoning Plan is attached hereto as Exhibit "A" and incorporated herein by reference.
- (2) The Subject Property consists of 3.15 acres, more or less, and shall be developed as a single-family detached residential home community containing a maximum of eleven (11) individual residential homes.

Hickory Custom Homes, LLC  
2550 Sandy Plains Rd., Suite 225-264  
Marietta, Georgia 30066

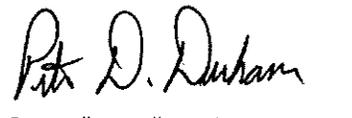

- (3) The proposed residential homes shall be traditional in style and architecture, shall be a maximum of two (stories) in height and shall have facades consisting of brick, stone, stacked stone, cedar shake shingles, board and batten, cementitious siding, or combinations thereof, with complementary accents, in compliance with the City of Marietta's "four-sided architecture" requirement. Each residential home shall have a two-car garage.
- (4) Applicant agrees to the creation of a mandatory homeowners association consistent with upscale communities in the area. The mandatory homeowners association shall be responsible for the upkeep and maintenance of the entrance area, signage, all common areas, open space, common landscaped areas, mail kiosk, private streets, fencing, open space and amenity areas contained within the development.
- (5) Additionally, and in conjunction with the creation of the mandatory homeowners association, there shall be protective covenants for the proposed community. The protective covenants shall be recorded in the Deed Records of Cobb County, Georgia and shall contain covenants, rules and regulations applicable to the residential community.
- (6) All homes within the proposed residential community shall be "for sale" units. There shall be no more than a maximum of one (1) residential home being leased at any one-time, which restriction shall be included in the covenants, rules and regulations.
- (7) The proposed single-family residential community shall contain a six (6) foot privacy fence along the perimeter of the development.
- (8) The entrance signage for the proposed community shall be ground based, monumental-style signage and shall consist of brick, stone, stacked stone or combinations thereof, with accents consistent with the architecture and style of the residences. The entrance landscaping shall be professionally designed, implemented and maintained.
- (9) Setbacks for the proposed development shall be as shown and reflected on the referenced Zoning Plan.
- (10) The proposed single-family residential home community may have private streets, twenty-four (24) feet in width, from back-of-curb to back-of-curb. Construction of the private streets shall comply in all respects as to materials, base, and other requirements with the City of Marietta Code.
- (11) Sidewalks shall be installed as shown and reflected on the referenced Zoning Plan.
- (12) All utilities within the proposed community shall be underground. Stormwater detention shall be above ground as shown and reflected on the referenced Zoning Plan.

- (13) Street lighting within the proposed community shall be environmentally sensitive, decorative and themed to the architecture and style of the residential homes.
- (14) All setbacks, landscape and buffer areas may be penetrated for purposes of fencing, access, utilities and stormwater management; including, but not limited to, drainage and detention facilities, utilities and any and all slopes or other required engineering features of the foregoing. A two (2) feet to three (3) feet high temporary retention earth berm shall be amassed adjacent to the neighboring lake to redirect the water and eliminate any potential construction runoff into the lake. This temporary berm shall be removed upon completion of the adjacent lake construction.
- (15) All landscaping referenced herein shall be approved by the City Arborist and City Staff as part of the Plan Review and Permitting Process and incorporated into the overall landscape plan for the proposed single-family residential community.

We believe the requested zoning, together with the Zoning Plan and the stipulations set forth herein, is an appropriate use of the Subject Property while taking into consideration the uses of properties in the surrounding area. The proposed single-family residential community will be a quality development and will be an asset to the City, as well as an enhancement to the Subject Property. Thank you for your consideration in this request.

Sincerely,

  
Ali Ghadrhan

## STAFF ANALYSIS

### *Location Compatibility*

The applicant is requesting to consolidate and rezone five parcels (315 Freys Gin Road and 1222, 1230, 1238, & 1246 Banberry Road) into a 9.57-acre property for four (4) multi-family buildings. The site was recently rezoned to PRD-SF (Planned Residential Development – Single-Family) for a 123-unit townhouse community (Z2019-19). Most of the property remains an active auto salvage yard on the previous industrial land and the remainder of the site is vacant. Adjacent properties to the north are zoned R-4 (Single family Residential – 4 units/ac) and OIT (Office Institution Transitional); CRC (Community Retail Commercial) to the southwest; and LI (Light Industrial) to the south, west, and east.

### *Use Potential and Impacts*

The applicant wishes to rezone the property from PRD-SF to PRD-MF (Planned Residential Development - Multi-Family) to develop apartment-style student housing built out with 460 individual rooms and 166 complete units. Since the property is within a quarter (1/4) of a mile from the Kennesaw State University-Marietta campus, the units will be marketed towards students. The leases would be for individual bedrooms with a private bathroom but would be organized into one-, two-, three-, and four-bedroom units with shared living and kitchen areas. The Zoning Ordinance defines an apartment unit as *one or more rooms with private bath and kitchen facilities comprising an independent self-contained dwelling unit in a building containing more than two dwelling units*. As a result, the density calculation would be based on 166 complete units (shared living and kitchen space) and would be 17.33 units/acre for this proposal. *(If the density were determined based on acreage and proposed number of bedrooms, the density of the development would be 48.07 units/acre.)*

When a PRD-MF district abuts a single-family residential district or use, a 30-foot buffer is required. The applicant is requesting a variance to disturb and replant the buffer adjacent to the homes on Banberry Road. Buffers are to consist of a permanent wall or solid fence no less than six feet in height, with the finished side facing outward, and a screen of evergreen plantings. The plans provided show two staggered rows of trees within the replanted buffer. The following variance would be required to disturb the buffer as shown:

- Variance to disturb and replant the 30-foot buffer adjacent to residential. [§708.14 (I.) and §710.05 (A)]

The Future Land Use (FLU) Map designates the subject property as IW (Industrial Warehousing). IW is intended for industrial uses that support light industrial, office/warehouse, and distribution uses. The Comprehensive Plan notes the importance of protecting IW districts from encroachment of residential uses and the rezoning of IW properties to any residential designation is highly discouraged. Although the properties are already zoned residential, the rezoning request is to a higher density residential creating more of a residential encroachment. Therefore, the request to rezone from PRD-SF to PRD-MF is not supported by the City's Comprehensive Plan.

### *Environmental Impacts*

The majority of the subject property has been operating as an auto salvage facility for 60 years or more. The City's earliest aerial photography data from 1961 shows the property as a well-established auto salvage and wrecking yard. If approved, a Phase II environmental study would be required and reviewed during the site plan review process.

The applicant must provide a 30-foot landscape buffer with a 6-foot high wall or fence along the perimeter that is adjacent to single family residential properties.

### *Economic Functionality*

The properties on Banberry Road have been historically used as residences until the structures were demolished by the current owner within the past ten years. Had the houses not been demolished, it is likely they would still be functioning as residences.

The property at 315 Freys Gin Road functions as a legally nonconforming use for auto salvage; however, it is not a functional use as currently zoned.

### *Infrastructure*

The Zoning Ordinance requires that multifamily developments containing more than 100 units must provide at least two access points to arterial or collector streets. The proposed development provides access to Banberry and Freys Gin Road (both collector streets). The developer shows a deceleration lane along Freys Gin Road and a proposed gated access at the entry to the housing units. According to Marietta Fire, the gates shown are not 30' wide and, *"though there are two entrances, the newly adopted codes require the entrances to be separated a distance apart equal to not less than 1/2 of the length of the maximum overall diagonal dimension of the lot or area to be served, measured in a straight line between accesses."*

Public Works recommends that the entrance along Freys Gin Road should provide a right-in/right-out access only.

Parking for apartments is based on the number of bedrooms per unit. Requirements are given for one-, two-, and three- bedroom options and range from 1.7 spaces per unit to 2.2 spaces. There is no listed requirement for a four-bedroom apartment. Since the 460 bedrooms would be leased individually, a reasonable assumption will be that most or all the occupants would have a car. The provided plan does not include enough parking spaces to provide one space for each of the 460 bedrooms, nor are there any additional spaces allocated for the amenity areas.

Of the proposed 449 parking spaces, 162 spaces are smaller than the typical standard parking space size. The typical size for parking spaces are 9 feet by 20 feet; compact spaces

can be no less than 9 feet by 16 feet and can make up no more than 25% (89 spaces) of the required parking spaces. Even with the reduced amount of parking and parking space area, the amount of paving on the site exceeds that allowed in PRD-MF. As a result, the applicant is requesting the following variances:

- Variance to allow 45% (162 parking spaces) of the provided parking spaces (449) to be 9 feet wide and 16 feet deep. [§716.08 (C.4)]
- Variance to increase the impervious surface coverage from 60% to 65%. [§708.14 (H)]

Sidewalks will be required along Freys Gin and Banberry frontage. All sidewalks must be constructed or improved to a 5-foot-wide sidewalk and 2-foot-wide landscape strip.

The Fire code requires any dead-ends in Fire Apparatus Access roads greater than 150' must be provided with an approved fire apparatus turn around (*use figure D103.1 {IFC 2018 503.2.5}*).

The elementary school serving this area would be Lockheed and/or Park Street. The site would have access to water, sewer, and electricity.

### *Overhead Electrical/Utilities*

There are existing overhead power poles along Banberry Road as shown on the site plan provided. All structures must be at least 10 feet away from the power lines. If the power poles or utility lines are affected by the development, they must be relocated underground at the developer's expense. This would also minimize potential conflicts with street trees.

### *History of Property*

The subject properties were recently rezoned from LI and R-4 to PRD-SF in June of 2019 (Z2019-19) with variances specific to the development presented.

There are no special land use permits granted for the subject properties.

### *Other Issues*

Although the PRD-MF category is a site-specific zoning that allows a developer flexibility – there are some minimum and maximum standards that apply. For instance, the required minimum floor areas are noted:

- 500 sq. ft. for an efficiency
- 650 sq. ft. for 1-bedroom unit
- 800 sq. ft. for 2-bedroom unit
- 1000 sq. ft. for 3-bedroom unit

**Department of Development Services**  
205 Lawrence Street  
Marietta, Georgia 30060  
Rusty Roth, AICP, Director

The applicant has stated the proposed floor areas would meet these standards.

The plan submitted is a general plan that is required with the rezoning application; based on the information provided, the overall design appears to generally comply with the PRD-MF standards. A detailed plan will be required prior to land disturbance and must include a tree plan, architectural elevations, and a detailed site plan.

## ANALYSIS & CONCLUSION

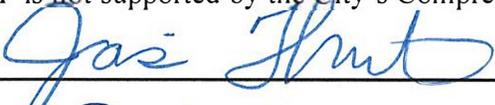

The applicant is requesting to consolidate and rezone five parcels (315 Freys Gin Road and 1222, 1230, 1238, & 1246 Banberry Road) into a 9.57-acre property for four (4) multi-family buildings. The site was recently rezoned to PRD-SF (Planned Residential Development – Single-Family) for a 123-unit townhouse community (Z2019-19). Most of the property remains an active auto salvage yard on the previous industrial land and the remainder of the site is vacant.

The applicant wishes to rezone the property from PRD-SF to PRD-MF (Planned Residential Development - Multi-Family) to develop apartment-style student housing built out with 460 individual rooms and 166 complete units. Since the property is within a quarter (1/4) of a mile from the Kennesaw State University-Marietta campus, the units will be marketed towards students. The leases would be for individual bedrooms with a private bathroom but would be organized into one-, two-, three-, and four-bedroom units with shared living and kitchen areas. The Zoning Ordinance defines an apartment unit as *one or more rooms with private bath and kitchen facilities comprising an independent self-contained dwelling unit in a building containing more than two dwelling units*. As a result, the density calculation would be based on 166 complete units (shared living and kitchen space) and would be 17.33 units/acre for this proposal. *(If the density were determined based on acreage and proposed number of bedrooms, the density of the development would be 48.07 units/acre.)*

Collectively, if the rezoning request is approved, the following variances would be necessary:

1. Variance to disturb and replant the 30-foot buffer adjacent to residential. [§708.14 (I.) and §710.05 (A)]
2. Variance to allow 45% (162 parking spaces) of the provided parking spaces (449) to be 9 feet wide and 16 feet deep. [§716.08 (C.4)]
3. Variance to increase the impervious surface coverage from 60% to 65%. [§708.14 (H)]

The Future Land Use (FLU) Map designates the subject property as IW (Industrial Warehousing). IW is intended for industrial uses that support light industrial, office/warehouse, and distribution uses. The Comprehensive Plan notes the importance of protecting IW districts from encroachment of residential uses and the rezoning of IW properties to any residential designation is highly discouraged. Although the properties are already zoned residential, the rezoning request is to a higher density residential creating more of a residential encroachment. Therefore, the request to rezone from PRD-SF to PRD-MF is not supported by the City’s Comprehensive Plan.

## DATA APPENDIX

### ***CITY OF MARIETTA - WATER***

---

Is a water line adjacent to the property?	Yes
If not, how far is the closest water line?	N/A
Size of the water line?	6" in Freys Gin and in Banberry
Capacity of the water line?	A fire flow test may be required
Approximate water usage by proposed use?	Not provided

### ***CITY OF MARIETTA - WASTEWATER***

---

Is a sewer line adjacent to the property?	No
If not, how far is the closest sewer line?	Approximately 50'
Size of the sewer line?	8" in Freys Gin and in Banberry
Capacity of the sewer line?	A.D.F. Peak
Estimated waste generated by proposed development?	Not provided
Treatment Plant Name?	Cobb County
Treatment Plant Capacity?	Cobb County
Future Plant Availability?	Cobb County

**DATA APPENDIX CONTINUED**

***DRAINAGE AND ENVIRONMENTAL CONCERNS***

Does flood plain exist on the property:	No
What percentage of the property is in the flood plain?	N/A
What is the drainage basin for the property?	Rottenwood Creek
Is there potential for the presence of wetlands as determined by the U.S. Environmental Protection Agency?	No
If so, is the use compatible with the possible presence of wetlands?	No
Do stream bank buffers exist on the parcel?	No
Are there other topographical concerns on the parcel?	No
Are there storm water issues related to the application?	No
Potential presence of endangered species in the area?	No

**Additional Comments:**

- Full site development plans required
- Phase I & II environmental assessment required
- Prefer main entrance on Freys Gin and not Banberry. Freys Gin access will be limited to right in and right out due to proximity to nearby intersection.
- A traffic study has been provided

***TRANSPORTATION***

What is the road affected by the proposed change?	Frey's Gin Rd and Banberry Rd
What is the classification of the road?	Collector
What is the traffic count for the road?	unknown
Estimated # of trips generated by the proposed development?	Daily <b>unknown</b> AM PM
Estimated # of pass-by cars entering proposed development?	unknown
Do sidewalks exist in the area?	Yes
Transportation improvements in the area?	No
If yes, what are they?	

EMERGENCY SERVICES

Table with 2 columns: Question and Answer. Questions include: Nearest city or county fire station from the development?, Distance of the nearest station?, Most likely station for 1st response?, Service burdens at the nearest city fire station (under, at, or above capacity)?

Comments:

- Gates require 50' setback from public ROW, 30' wide minimum, powered gates shall be provided with and maintain a Knox Key Switch model 3502 keyed to the Marietta Fire Department system.
• Private drive accessing the Townhome section needs to be addressed. Any dead-ends in Fire Apparatus Access roads greater than 150' shall be provided with an approved fire apparatus turn around (use figure D103.1 {IFC 2018 503.2.5})
• All buildings shall be protected by an approved automatic fire sprinkler system as required by Marietta City Code 2-6-140.
• We have reviewed the attached site plan, and the gates shown are not 30' wide. Though there are two entrances the newly adopted codes require the entrances to be separated a distance apart equal to not less than 1/2 of the length of the maximum overall diagonal dimension of the lot or area to be served, measured in a straight line between accesses. (IFC 503.1.1-Appendix D)

MARIETTA POWER - ELECTRICAL

Does Marietta Power serve this site? Yes [x] No [ ]

If not, can this site be served? Yes [ ] No [ ]

What special conditions would be involved in serving this site?

Marietta Power is serving or has served all parcels listed on application.

REQUIRED INFORMATION

Applicant must submit the following information by 4:00 p.m. on or before the application deadline. Failure to submit any item, or any additional information that might be requested, on or before the deadline will result in the application being held until the next scheduled meeting of the Planning Commission.

- 1. The original application must be submitted with ALL ORIGINAL SIGNATURES - Copies of the application or signature(s) will NOT be accepted. ALL rezoning submittals must include proposed plans, supplementary material, etc. in Adobe Acrobat on computer disk.
2. Legal Description. Legal description must be in a WORD DOCUMENT.
3. Application fee (\$500)
4. Copy of the deed that reflects the current owner(s) of the property.
5. Copy of current tax bill showing payment or a certification from the City of Marietta Tax Office stating that taxes have been paid.
6. Site plan, plat or survey prepared by an architect, engineer (P.E. or Civil Engineer), Landscape Architect or Land Surveyor whose state registration is current and valid, and whose seal shall be affixed to the site plan/plat/survey.

Copies Required: One (1) - (8 1/2" x 11") -or- (11" x 17") drawn to scale. Optional Additional Plat size: (24"x 36"). If providing (24"x 36") then 5 copies REQUIRED.

The following information must be included:

- Specific use or uses proposed for the site
• Acreage, bearing and distances, other dimensions, and location of the tract(s)
• Locations, sizes and setbacks of proposed structures, including the number of stories and total floor area
• Detention/retention areas, and utility easements
• Public or private street(s) - right of way and roadway widths, approximate grades
• Location and size of parking area with proposed ingress and egress
• Specific types and dimensions of protective measures, such as buffers
• Landscaping
• Wetlands, stream buffers, and 100 year floodplain
7. A detailed written description of the proposed development/project must be submitted with the application.

**Applicant:** Campus Realty Advisors, LLC  
**Titleholder:** Hartwood Investments, L.L.C.

**DESCRIPTION OF THE PROPOSED DEVELOPMENT/PROJECT**

The Application for Rezoning has been submitted by Campus Realty Advisors, LLC (“Applicant”) for the purpose of providing much-needed additional housing for students attending the Kennesaw State University (“KSU”) Marietta Campus. This housing will be “Purpose-Built Student Housing” which is designed and operated to cater specifically to college students and provide a living and learning experience for upper class and graduate students.

The property which is the subject of the Application for Rezoning is an assemblage of five parcels totaling 9.57 acres, more or less, located in Land Lot 1282, 16<sup>th</sup> District, and Land Lot 505, 17<sup>th</sup> District, 2<sup>nd</sup> Section, Cobb County, Georgia, and are more particularly identified in the Parcel Listing submitted with the Application for Rezoning (hereinafter collectively the “Property” or the “Subject Property”). The Rezoning Application seeks approval of a request to rezone the Subject Property from the current PRD-SF zoning classification to the PRD-MF classification. The Property is currently operating as an auto salvage yard.

The Property is located on the east side of Freys Gin Road (315 Freys Gin Road) and the south side of Banberry Road (1222, 1230, 1238 and 1246 Banberry Road). It is less than one-quarter mile from the entrance to the KSU Marietta Campus, and it will be easy for students to walk to campus via pedestrian crosswalks from the Property to campus. Applicant proposes the construction of approximately one hundred seventy (170) student housing units that will serve approximately four hundred sixty (460) students. The units will be a mixture of townhomes and flats. Each student will sign an individual lease for their bedroom and private bathroom, and each unit will have a common living room and kitchen shared by the residents in that unit. The proposed development will have surface parking for all residents and additional visitor parking. It will include a clubhouse with amenity spaces, including, but not limited to, study rooms, computer lab, fitness center, and common gathering areas. There will be a thirty (30) foot landscape buffer along the residentially zoned properties along the adjacent Banberry Road.

Applicant will supplement its Application for Rezoning throughout the rezoning process with additional items, including, but not limited to, updated and revised Zoning Plans if necessary, a landscape plan for buffer areas and proposed open space areas, elevations and floorplans, and details for open space and amenity plans. A detailed letter of agreeable zoning stipulations and conditions will be submitted on behalf of Applicant prior to the hearings before the Planning Commission and City Council. Any required variances will be set forth in detail during the rezoning process.

Applicant looks forward to working with the City of Marietta to provide much-needed housing for the students in this area of the City. It is fortunate for all to be able to provide a walkable and student-centered living environment this close to the university, while at the same time eliminating a current land use that would be better suited for a more industrial location.

**TO: Marietta Daily Journal**

**FROM: City of Marietta**

**RUN AD DATE: July 17, 2020**

**CITY OF MARIETTA  
PUBLIC NOTICE OF REZONINGS, SPECIAL LAND USE PERMITS, and CODE AMENDMENTS**

The City of Marietta hereby gives notice that a public hearing will be held to give consideration to the following rezoning request at the City Council meeting held on **Wednesday, August 12<sup>th</sup>, 2020, 7:00 p.m.**, City Hall, for a final decision to be made.

**Z2020-13 [REZONING] CAMPUS REALTY ADVISORS, LLC (HARTWOOD INVESTMENTS, LLC)** are requesting the rezoning of 9.57 acres located in Land Lots 505 & 576, District 17, Parcels 0170, 0720, 0710, 0700, & 0690 of the 2<sup>nd</sup> Section, Cobb County, Georgia, and being known as 315 Frey's Gin Road and 1222, 1230, 1238, & 1246 Banberry Road from PRD-SF (Planned Residential Development – Single Family) to PRD-MF (Planned Residential Development – Multi Family). Ward 7A.

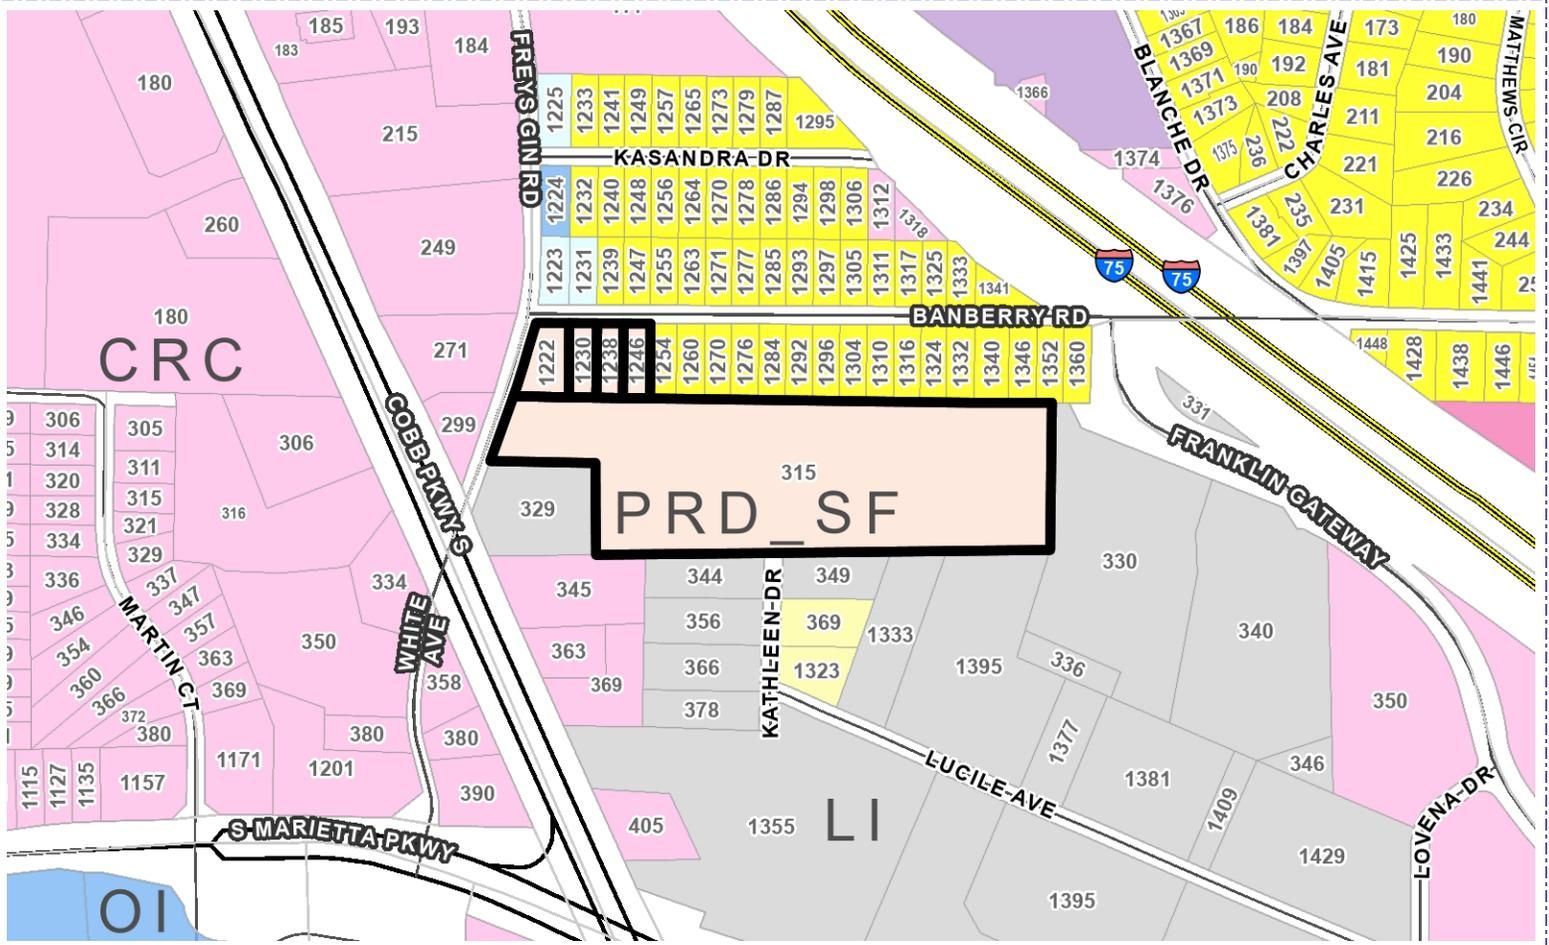

A description and plat of the property sought for the rezoning, special land use permit, and variances are on file in the Planning and Zoning Office, City Hall, and is available for inspection between 8:00 A.M. and 5:00 P.M., Monday through Friday. Anyone wishing to attend may do so and be heard relative thereto. You may also review the property file at [www.mariettaga.gov](http://www.mariettaga.gov) and enter the case # in the search box.

**For additional information including questions about virtual participation, please call the Planning and Zoning Office (770) 794-5669.**

**Accessibility to Meetings:** If you believe you may need the City/BLW to provide special accommodations in order to attend/or participate in any of the above meetings, please call ADA Coordinator at 770-794-5558 no later than 48 hours before the date of the above meeting.

grant of the requested zoning and shall be binding upon the Subject Property. This letter shall supersede and replace in full the prior letters of agreeable stipulations and conditions dated and submitted on June 30, 2020, and July 6, 2020. The proposed, revised stipulations are as follows:

- (1) Applicant seeks rezoning of the Subject Property from the existing zoning category of PRD-SF (Planned Residential Development – Single Family) to the proposed zoning category of PRD-MF (Planned Residential Development – Multi-Family), with reference to the revised Site Plan, attached to this revised stipulation letter. A reduced copy of the revised Site Plan is attached as Exhibit “A” and incorporated herein by reference.
- (2) The Subject Property consists of 9.57 acres, more or less, and shall be developed for a student housing development, containing a maximum of one hundred fifty-eight (158) units, and no more than four hundred fifty-five (455) bedrooms.
- (3) Access from Freys Gin Road shall include installation of a deceleration lane; as well as, sidewalk, curb, and gutter.
- (4) The proposed development shall have a minimum of 2.8 acres of open space consisting of passive recreation and buffer areas.
- (5) The proposed development shall have an active recreation area consisting of a clubhouse and pool.
- (6) There shall be no vehicular access to Banberry Road. Vehicular access to the proposed community shall be from Freys Gin Road and Kathleen Drive only.
- (7) The proposed community unit configurations shall be in compliance with The University System of Georgia Guidelines for student housing with respect to health-related protocols and policies.
- (8) Applicant agrees marketing materials; including, but not limited to, electronic and web-based, shall be targeted and directed to student populations at Kennesaw State University and Life University.
- (9) Applicant agrees the proposed community shall be limited to no more than one (1) resident per bedroom, which restriction shall be included in all leases.
- (10) There shall be no drop-off, location or provision for any commercial rental scooter operation or business.

- (11) Vehicular access to the proposed community from Freys Gin Road and Kathleen Drive shall be secured access, through gates available only to management staff, emergency services, approved maintenance vendors, residents and their acknowledged guests; except for limited access to clubhouse and leasing areas.
- (12) Access to units shall be secured; controlled and available only to residents and management staff through the means of access cards and the like.
- (13) Applicant agrees the proposed community shall have 24-hour, on-site, management and personnel.
- (14) There shall be 24-hour surveillance and security, including coordination with local law enforcement. Applicant shall coordinate a safety and security plan with local law enforcement.
- (15) Applicant agrees the proposed community shall have a policy that all leases shall be a minimum of twelve (12) months based on the academic calendar (except in the case of any potential master lease with the University for student residents or students that sign leases after the start of the fall term on the condition those leases expire at the end of the academic year).
- (16) Applicant agrees the proposed community shall have student directed and oriented amenities and programs.
- (17) Applicant agrees the proposed community shall provide and make available student-oriented programming and study opportunities through coordination with Kennesaw State University and/or Life University, if agreeable, which can provide the opportunity for off-campus learning centers and dedicated space at the proposed community.
- (18) Applicant agrees to utilize best efforts to coordinate with Kennesaw State University regarding any opportunity to honor former University President Betty Siegel. By way of example, naming a street, amenity area, or building in her honor.
- (19) The overall exterior elevations for the proposed community shall be substantially similar to the elevations attached collectively as Exhibit "B" and incorporated herein by reference.

- (20) There shall be a thirty (30) foot greenbelt buffer located along the northerly boundary of the Property, adjacent to residential properties located along Banberry Road. This greenbelt buffer shall be graded and replanted with landscaping and trees to provide for visual screening.
- (21) There shall be an eight (8) foot decorative brick wall along the Banberry Road frontage and around the corner to the Freys Gin Road entrance.
- (22) There shall be a minimum of a five (5) foot sidewalk and a ten (10) foot landscaping strip along the Banberry Road frontage, outside of the decorative brick wall.
- (23) There shall be a ten (10) foot sidewalk along the Freys Gin Road frontage with a ten (10) foot landscape strip.
- (24) All lighting within the proposed community, including parking lot lighting and exterior lighting for the buildings, shall be designed to not illuminate beyond the Property's boundaries.
- (25) In conjunction with the proposed rezoning, Applicant requests the following variances which shall be deemed approved by the City of Marietta upon approval of the requested rezoning, as referenced and submitted, together with the stipulations set forth herein:
  - (a) Variance to disturb and replant the thirty (30) foot buffer adjacent to residential;
  - (b) Variance to allow thirty-five (35) percent (161 parking spaces) of the provided parking spaces (465 parking spaces) to be eight and one half (8½) feet wide and sixteen (16) feet deep; and
  - (c) Variance to increase the allowable impervious surface coverage from sixty (60) percent to sixty-five (65) percent.

We believe the requested zoning, together with the revised Site Plan and the revised stipulations set forth herein, is an appropriate use of the Subject Property while taking into consideration uses of properties in the surrounding area. The proposed community will be a quality development and will be an asset to the City; as well as, enhancement to the Subject Property and the community as a whole. Thank you for your consideration in this request.

Re: Application for Rezoning of Pulte Home Company, LLC (“Applicant”),  
±3.77 acres from O&I to PRD-SF, City of Marietta, Georgia, 521 Atlanta  
Street (Z2020-19).

Dear Shelby:

After receiving input and feedback from interested parties, a unanimous recommendation for approval by the Marietta Planning Commission and direction from the Mayor and Council during a public hearing on July 8, 2020, we are hereby submitting this letter of agreeable stipulations/conditions to ensure quality which will become conditions and a part of the grant of the requested rezoning and run with the land. The plan reduces the homes from 49 to 40 and reduces the density from 13 to 10.6 u.p.a. while maintaining the underground detention desired by the neighbors. This letter supersedes any previous stipulation letter and, upon grant of the rezoning we agree to the following:

1. The architectural style, composition and design of the proposed townhomes shall be constructed consistent with the “Four-Sided Architecture” Requirement as defined in Section 724.02 of the Marietta Zoning Ordinance. (See attached). The architectural style represents high quality townhomes with blended building materials that may include the application of stone, brick, hardi-plank, shake and board and batten. No vinyl materials shall be used on the exterior of the town homes. The minimum heated floor area shall be 1,400 square feet.<sup>1</sup>
2. Resident and guest parking provisions shall be provided per Sections 708.09 and 716.07 of the Marietta Zoning Ordinance.
3. Project will include 1.2 acres of the site as open space.
4. All units within the proposed community shall be "for sale" units. The Declaration of Restrictive Covenants shall restrict the number of units which can be leased at any one time to no more than five percent.

---

<sup>1</sup> The price points shall be \$300,000 to \$350,000 and up.

5. Applicant agrees to the recording and enforcement of a Declaration of Restrictive Covenants which shall contain covenants, rules, and regulations applicable to the proposed residential community.
6. Also, and in conjunction with the Declaration of Restrictive Covenants, Applicant agrees to the creation of a mandatory homeowners association which shall be responsible for the upkeep and maintenance of the entrance area, signage, all common areas, open space, private streets, mail kiosk, and all landscaping and plantings
7. Lighting within the proposed community shall be environmentally sensitive, decorative and themed to the architecture and style of the proposed residential homes.
8. The yard areas around each unit shall be fully sodded/landscaped and maintained by the mandatory homeowner's association to be created through the Declaration of Restrictive Covenants applicable to the proposed community.
9. The entrance signage for the proposed community shall be ground based, monument-style signage, and shall complement the high quality, architectural vision and style of the proposed homes. The entrance landscaping shall be professionally designed, implemented, and maintained. All signage shall comply with the City of Marietta Sign Ordinance.
10. There shall be internal sidewalks within the proposed residential community, as more particularly shown and reflected on the updated Site Plan. However, sidewalks shall not be required in any areas in which the sidewalk conflicts with any guest parking requirements.
11. The proposed residential community shall contain private streets, twenty-four (24) feet in width, from back-of-curb to back-of-curb.
12. All utilities servicing the residences within the proposed community shall be located underground.
13. All construction and employee vehicles and equipment will be parked, and otherwise located, on the property during development of infrastructure and construction of residences, and shall not be parked on or along Atlanta Street, Kings Court and E. Dixie Avenue. There will be no stacking of vehicles along any roadway waiting for entry onto the property.
14. All landscaping referenced herein; including, but not limited to, the frontage, entrance area [including entrance signage], island areas, and open space areas, shall be approved by the City of Marietta as part of the plan review process and incorporated into the

overall landscape plan for the proposed community as shown on the attached landscape plan (see attached).

15. All setbacks, landscape and buffer areas may be penetrated for purposes of access, utilities and stormwater management; including, but not limited to, drainage and detention facilities and any and all slopes or other required engineering features of the foregoing. Any disturbed area shall be restored with comparable plantings as allowed by the City of Marietta or any utility provider.
16. All stormwater infrastructure located outside of the public right-of-way shall be privately maintained. Applicant agrees to comply with the Water Quality requirements of the CWA-NPDES-NPS Permit and City Water Quality Ordinance.
17. Development and construction hours for the proposed project shall be limited to the following:
  - a. 7:00 a.m. to 7:00 p.m. – Monday – Friday, April 1<sup>st</sup> through September 30<sup>th</sup>;
  - b. 7:00 a.m. to 7:00 p.m. – Monday – Friday, October 1<sup>st</sup> through March 31<sup>st</sup>;
  - c. 9:00 a.m. to 6:00 p.m. – Saturday; and
  - d. No work on Sunday unless approved by the respective council member representing the Ward.
  - e. To the extent blasting is required on the Site (none is expected), any blasting will be performed only on Monday-Friday between the hours of 9:00 a.m. and 3:00 p.m. and a 24-hour notice must be given in writing to any occupied residence within 1000 feet of the Site.
18. Applicant requests approval of the following contemporaneous variances:
  - a. Section 708.09H of the Marietta City Code to allow the minimum lot size to be the footprint of the smallest unit.
  - b. Section 730.01 Table L and Section 726.03 A to allow the minimum access/utility easement width for a private road from 50 feet to 32 feet.<sup>2</sup>

---

<sup>2</sup> At the planning commission the Fire Department confirmed this was no problem from a fire safety perspective.

Ms. Shelby Little, Manager  
Planning and Zoning Division  
Marietta Development Services

Page 4

---

- c. Other variances as may be depicted on site plans recommended or approved by the Marietta Planning Commission and Mayor and Council.
19. Minor changes in use and intensity of use that may not require an amendment to the general plan and eligible to be submitted for approval in conjunction with the detailed plan shall be discussed in advance with the respective council member representing the Ward.
20. Consistent with the existing zoning stipulations for Z2018-23, applicant will conduct a historical resources survey and submit same to the City of Marietta prior to receiving final permits.

Please do not hesitate to contact me should you or the staff require any further information or documentation prior to the Applications being heard and considered by the Mayor and Council.

## STAFF ANALYSIS

### *Location Compatibility*

The applicant, Pulte Home Company, LLC, is requesting the rezoning of 3.77 acres located on the east side of Atlanta Street, just south of the traffic light at East Dixie Avenue. The adjacent properties to the north and east are zoned RM-8 (Residential Multi-Family/8 units/acre), to the south RA-6 (Single Family Residential-Attached/6 units/acre), and directly to the west are zoned LI. The request is to change the zoning from OI (Office Institutional) to PRD-SF (Planned Residential Development) for a townhome community to be accessed from Kings Court.

### *Use Potential and Impacts*

The proposed development would consist of forty-nine (49) townhomes arranged along a new, circular, private roadway to be accessed from Kings Court, which is classified as a public, local road. The townhomes would have 2-car garages accessed from the rear and the front façades would face Atlanta Street, Kings Court, and an internal greenspace between buildings.

Construction under PRD-SF zoning has minimum standards for tract size, lot size, floor area, and impervious surface coverage. Fee simple townhomes built in PRD-SF zones are subject to additional requirements, such as having a 5% rental limit, active and passive recreation components, guest parking spaces, driveways at least twenty (20) feet in depth, and compliance with the “Four-Sided Architecture” requirement. The proposed plan adequately provides the required open space, guest parking spaces, and driveway depths required for townhome communities developed under PRD-SF. Although not specifically required, it should be noted that the width and location of the driveway provides little, if any, area for landscaping to buffer adjacent properties.

Although not shown, the description from the applicant indicates an active recreational feature will be provided. However, the following variance is being requested:

- Variance to reduce the minimum lot size requirement from 4,000 square feet to 1,000 square feet. [§708.09 (H)]

The use of this property as a residential neighborhood would be compatible with the surrounding uses, which are a mixture of duplexes, small apartment buildings, and single family homes. However, the density of the proposed development would be 13 units/acre.

The proposed density is higher than the surrounding neighborhood and would be slightly higher than most other, recently approved townhouse developments, as shown below:

Development	Townhouse Units	Acreage	Density	Open Space
Parkside East (Allgood Lawanna)	59	5.24	11.25	38.9%
Powder Springs Rd 1400	72	8.03	9.0	18.4%
The Registry	12	1.02	11.8	9.3%
Grammercy Park	32	3.29	9.72	12.8%
Wylie Road	150	12.13	12.37	30%
Frey's Gin	123	9.58	12.84	28.5%

The City's Comprehensive Plan classifies the future land use of this property as Medium Density Residential (MDR). MDR is intended for single family detached homes and attached townhomes with densities ranging from five (5) to eight (8) dwelling units per acre. The applicant's request to rezone to PRD-SF at a density of 13 units per acre is not supported by the City's Comprehensive Plan.

*Environmental Impacts*

There is no indication that any streams, floodplains, wetlands, or endangered species exist on the property. Prior to construction, plans to treat and contain stormwater will have to be submitted and approved by the City's Public Works Department. The site will also be expected to fully comply with the Tree Protection and Landscaping Ordinance.

*Economic Functionality*

This property has been vacant since 2006, when the historic home that had been on the property was demolished after a fire destroyed the structure.

*Infrastructure*

The plan shows the construction of a new private road to be accessed from Kings Court. New sidewalks are indicated along Kings Court, but the applicant appears to propose using the existing sidewalks along Atlanta Street. There are no sidewalks running alongside the new private road, but the plan has an ample network of sidewalks linking the buildings to the public streets as a walking trail. There is a guest parking area to satisfy the ten (10) required guest spaces. However, depending on the type of active amenity provided, more spaces may be required.

Based on the proposed design, the following variances would be necessary:

- Variance to reduce the minimum radii of horizontal curvature of the centerline to less than 100 feet. [§730.01 (H)]

- Variance to reduce the minimum access/utility easement width for a private road from 50 feet to 32 feet. [ (§730.01 TABLE L) and (§726.03 (A)) ]

A traffic study will be required to verify that the intersection of Kings Court and Atlanta Street is adequate. Kings Court may need to be improved to handle additional traffic count.

Due to the reduced centerline radii, trash corals may be required if sanitation trucks cannot properly maneuver within the development.

### *Overhead Electrical/Utilities*

There are overhead utility lines along the Atlanta Street frontage. While the proposed buildings appear to be far enough from the lines to prevent any conflicts, it may affect the ability to plant the necessary street trees to provide an adequate streetscape.

### *History of Property*

In September 2018, this property was rezoned (Z2018-23) from LI (Light Industrial) to OI (Office Institutional), with stipulations, for a private school. The following are stipulations approved as part of the rezoning:

- (1) Applicant seeks rezoning of the Subject Property from the existing zoning category of Light Industrial (“LI”) to the proposed zoning category of Office/Institutional (“OI”), site plan specific to the revised Concept Plan (“Site Plan”) prepared for Applicant by Gaskins Surveying Company, Inc. dated and last revised August 20, 2018. A reduced copy of the revised Site Plan is attached hereto for ease of reference as Exhibit “A” and incorporated herein by reference.
- (2) Applicant agrees to install a buffer, consisting of two (2) rows of evergreen trees, a minimum of six (6) feet in height, and a six (6) foot tall opaque fence adjacent to residentially zoned properties.
- (3) Applicant agrees there shall be a maximum student capacity of 360 students.
- (4) Applicant agrees any lighting installed as “field lighting” at the athletic field shall have a cut-off time of 10:00 p.m.
- (5) There shall be no vehicular access to the proposed school from Kings Court.
- (6) Applicant will conduct an historical resources survey and submit same to the City of Marietta prior to receiving final permits.

### *Historical Impacts*

The property is the site of a former historic home built in the 1800s that was used as a hospital during the Civil War. The house was destroyed by a fire in 2006. The rezoning application approved in 2018 (see above) contained a stipulation that the developer would conduct and submit to the City a historical resources survey prior to permitting.

### *Other Issues*

The PRD-SF zoning district is intended to bring cohesiveness and resourcefulness when it comes to land planning techniques for the city and allows both detached and attached residential units. PRD-SF is a site-specific zoning, which requires City Council approval of a detailed plan prior to beginning construction. Detailed plans, which include a site plan, tree plan, and building elevations, must be submitted to Council by way of the Judicial Legislative Committee. The plan approved with the rezoning shall become the General Plan.

---

## ANALYSIS & CONCLUSION

Pulte Home Company, LLC is requesting the rezoning of 3.77 acres located at 521 Atlanta Street from OI (Office Institutional) to PRD-SF (Planned Residential Development) for a forty-nine (49) unit townhome community. Adjacent properties are zoned RM-8, RA-6, and LI.

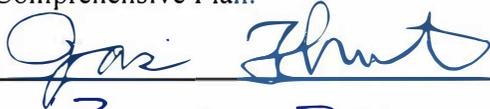

The proposed development would be arranged along a new, circular, private roadway to be accessed from Kings Court, which is classified as a public, local road. The townhomes would have 2-car garages accessed from the rear and the front façades would face Atlanta Street, Kings Court, and an internal greenspace between buildings. The use of this property as a residential neighborhood would be compatible with the surrounding uses, which are a mixture of duplexes, small apartment buildings, and single-family homes. However, the density of the proposed development would be 13 units/acre, which is higher than the surrounding neighborhood and would be slightly higher than most other recently approved townhouse developments.

The proposed plan adequately provides the required open space, guest parking spaces, and driveway depths required for townhome communities developed under PRD-SF zoning. Although not shown, the description from the applicant indicates an active recreational feature will be provided. In addition, although not specifically required, the location of the driveway provides little area for landscaping to buffer adjacent properties.

The plan also shows the construction of new sidewalks along Kings Court but appears to use the existing sidewalks along Atlanta Street. A traffic study will be required to verify the intersection of Kings Court and Atlanta Street is adequate. Kings Court may need to be improved to handle additional traffic count. Based on the proposed design, the following variances would be necessary:

- Variance to reduce the minimum radii of horizontal curvature of the centerline to less than 100 ft. [§730.01 (H)]
- Variance to reduce the minimum access/utility easement width for a private road from 50 ft. to 32 ft. [(§730.01 TABLE L) and (§726.03 (A))]
- Variance to reduce the minimum lot size requirement from 4,000 sq.ft. to 1,000 sq.ft. [§708.09 (H)]

The City's Comprehensive Plan classifies the future land use of this property as Medium Density Residential, which intended for single family detached homes and attached townhomes with densities ranging from five (5) to eight (8) dwelling units per acre. The applicant's request to rezone to PRD-SF at a density of 13 units per acre is not supported by the City's Comprehensive Plan.

## DATA APPENDIX

### *CITY OF MARIETTA - WATER*

---

Is a water line adjacent to the property?	Yes
If not, how far is the closest water line?	N/A
Size of the water line?	10"
Capacity of the water line?	A fire flow test may be required
Approximate water usage by proposed use?	Not provided

### *CITY OF MARIETTA - WASTEWATER*

---

Is a sewer line adjacent to the property?	Yes
If not, how far is the closest sewer line?	N/A
Size of the sewer line?	8"
Capacity of the sewer line?	A.D.F Peak
Estimated waste generated by proposed development?	Not provided
Treatment Plant Name?	Cobb County
Treatment Plant Capacity?	Cobb County
Future Plant Availability?	Cobb County

**DATA APPENDIX CONTINUED**

***DRAINAGE AND ENVIRONMENTAL CONCERNS***

Does flood plain exist on the property:	No
What percentage of the property is in the flood plain?	N/A
What is the drainage basin for the property?	Rottenwood
Is there potential for the presence of wetlands as determined by the U.S. Environmental Protection Agency?	No
If so, is the use compatible with the possible presence of wetlands?	No
Do stream bank buffers exist on the parcel?	No
Are there other topographical concerns on the parcel?	No
Are there storm water issues related to the application?	No
Potential presence of endangered species in the area?	No
<ul style="list-style-type: none"> <li>• Full site development plans required</li> <li>• Traffic Study required (intersection of Kings Court &amp; Atlanta Street). Kings Court may need to be improved to handle additional traffic count.</li> <li>• Demonstrate Fire/Sanitation access for streets with centerline radii less than 100' (City minimum). Trash Corals may be required.</li> </ul>	

***TRANSPORTATION***

What is the road affected by the proposed change?	Atlanta Rd
What is the classification of the road?	Arterial
What is the traffic count for the road?	21,500 (GDOT 2018)
Estimated # of trips generated by the proposed development?	Information not provided
Estimated # of pass-by cars entering proposed development?	Unknown
Do sidewalks exist in the area?	No
Transportation improvements in the area?	No
If yes, what are they?	NA

**Additional Comments:**

Traffic Study required.  
 Show crosswalk as continental style.

---

## DATA APPENDIX CONTINUED

### EMERGENCY SERVICES

---

Nearest city or county fire station from the development?	112 Haynes St
Distance of the nearest station?	1.1 miles
Most likely station for 1 <sup>st</sup> response?	51
Service burdens at the nearest city fire station (under, at, or above capacity)?	under

#### Comments:

All buildings will be required to be protected throughout by an approved automatic sprinkler system.

### MARIETTA POWER - ELECTRICAL

---

Does Marietta Power serve this site?      Yes   x                        No           

If not, can this site be served?              Yes                                 No           

What special conditions would be involved in serving this site?

**REQUIRED INFORMATION**

Applicant must submit the following information by 4:00 p.m. on or before the application deadline. Failure to submit any item, or any additional information that might be requested, on or before the deadline will result in the application being held until the next scheduled meeting of the Planning Commission.

1. **The original application must be submitted with ALL ORIGINAL SIGNATURES - Copies of the application or signature(s) will NOT be accepted. ALL rezoning submittals must include proposed plans, supplementary material, etc. in Adobe Acrobat on computer disk.**
2. Legal Description. **Legal description must be in a WORD DOCUMENT.**
3. Application fee (\$500)
4. Copy of the deed that reflects the current owner(s) of the property.
5. Copy of current tax bill showing payment or a certification from the City of Marietta Tax Office stating that taxes have been paid.
6. Site plan, plat or survey prepared by an architect, engineer (P.E. or Civil Engineer), Landscape Architect or Land Surveyor whose state registration is current and valid, and whose seal shall be affixed to the site plan/plat/survey.

**Copies Required: One (1) - (8 1/2" x 11") -or- (11" x 17") drawn to scale. Optional Additional Plat size: (24"x 36").**

If providing (24"x 36") then 5 copies REQUIRED.

The following information must be included:

- Specific use or uses proposed for the site
  - Acreage, bearing and distances, other dimensions, and location of the tract(s)
  - Locations, sizes and setbacks of proposed structures, including the number of stories and total floor area
  - Detention/retention areas, and utility easements
  - Public or private street(s) - right of way and roadway widths, approximate grades
  - Location and size of parking area with proposed ingress and egress
  - Specific types and dimensions of protective measures, such as buffers
  - Landscaping
  - Wetlands, stream buffers, and 100 year floodplain
7. A detailed written description of the proposed development/project must be submitted with the application.

**CAMPAIGN CONTRIBUTIONS**

The Owner and Applicant herein certify that he/she  has  has not made campaign contributions or gifts aggregating \$250.00 or more to the Mayor, any member of Council or any member of the Planning Commission within the two (2) years preceding the filing of the this application.

Detailed Written Description  
Application for Rezoning of Pulte Home Company, LLC  
City of Marietta  
521 Atlanta Street, Marietta, Georgia 30060

Pulte Home Company, LLC (“Pulte”) is envisioning the rezoning of 3.77-acre tract from current zoning of OI to requested Planned Residential Development-Single Family (PRD). Pulte proposes the development of 49, 3 story townhomes to be constructed consistent with the architectural requirements specified in the ordinance to include compliance with “Four-Sided Architecture” as defined in Section 724.02 of the Marietta Zoning Ordinance. The proposed townhomes will provide more than the minimum required and will have 1,945 square feet of heated floor area, to include 39% of the site as open space with provisions for one passive recreational feature and one active recreational feature as required by Section 708.09 of the Marietta Zoning Ordinance. Resident and guest parking provisions shall be provided per Sections 708.09 and 716.07 of the Marietta Zoning Ordinance. Pulte will also provide a mandatory homeowners association that will be responsible for the upkeep and maintenance of all front yards and common areas including all fencing, landscaping, amenities and buffers, and shall include architectural control oversights for the development.

Pulte proposes the rezoning to PRD to allow for a creative land plan to capitalize on the site’s proximity and connection to the both the Mountain to River Trail, as well as the Cemetery Multi Use Trail. The flexibility afforded by the PRD district will allow for the proposed development to contribute to goals espoused in the City’s Comprehensive Plan to continue to expand and connect city’s trail system in a way that foster recreation opportunities and transportation alternatives, including linkages to neighboring trails and other points of interest. The proposed PRD also provides an opportunity for a redevelopment project within a Corridor Character Area of the City that can provide for more diverse housing options near the downtown area with sidewalk and trail connections that incorporate pedestrian-oriented walkable connections. The proposed PRD is an ideal district to accommodate a redevelopment proposal to serve as a transition between more intense uses existing in the Community Activity Center across Atlanta Street, easterly to adjacent residential uses along E. Dixie Avenue, Delk Street and Kings Court.

Sincerely,

TAYLOR ENGLISH DECISIONS, LLC

Rob Hosack

**TO: Marietta Daily Journal**

**FROM: City of Marietta**

**RUN AD DATE: July 17, 2020**

**CITY OF MARIETTA  
PUBLIC NOTICE OF REZONINGS, SPECIAL LAND USE PERMITS, and CODE AMENDMENTS**

The City of Marietta hereby gives notice that a public hearing will be held to give consideration to the following rezoning request at the City Council meeting held on **Wednesday, August 12<sup>th</sup>, 2020, 7:00 p.m.**, City Hall, for a final decision to be made.

**Z2020-19 [REZONING] PULTE HOME COMPANY, LLC** is requesting the rezoning of 3.8 acres located in located in Land Lots 290, District 17, Parcel 0640 of the 2<sup>nd</sup> Section, Cobb County, Georgia, and being known as 521 Atlanta Street from OI (Office Institutional) to PRD-SF (Planned Residential Development – Single Family). Ward 1A.

A description and plat of the property sought for the rezoning, special land use permit, and variances are on file in the Planning and Zoning Office, City Hall, and is available for inspection between 8:00 A.M. and 5:00 P.M., Monday through Friday. Anyone wishing to attend may do so and be heard relative thereto. You may also review the property file at [www.mariettaga.gov](http://www.mariettaga.gov) and enter the case # in the search box.

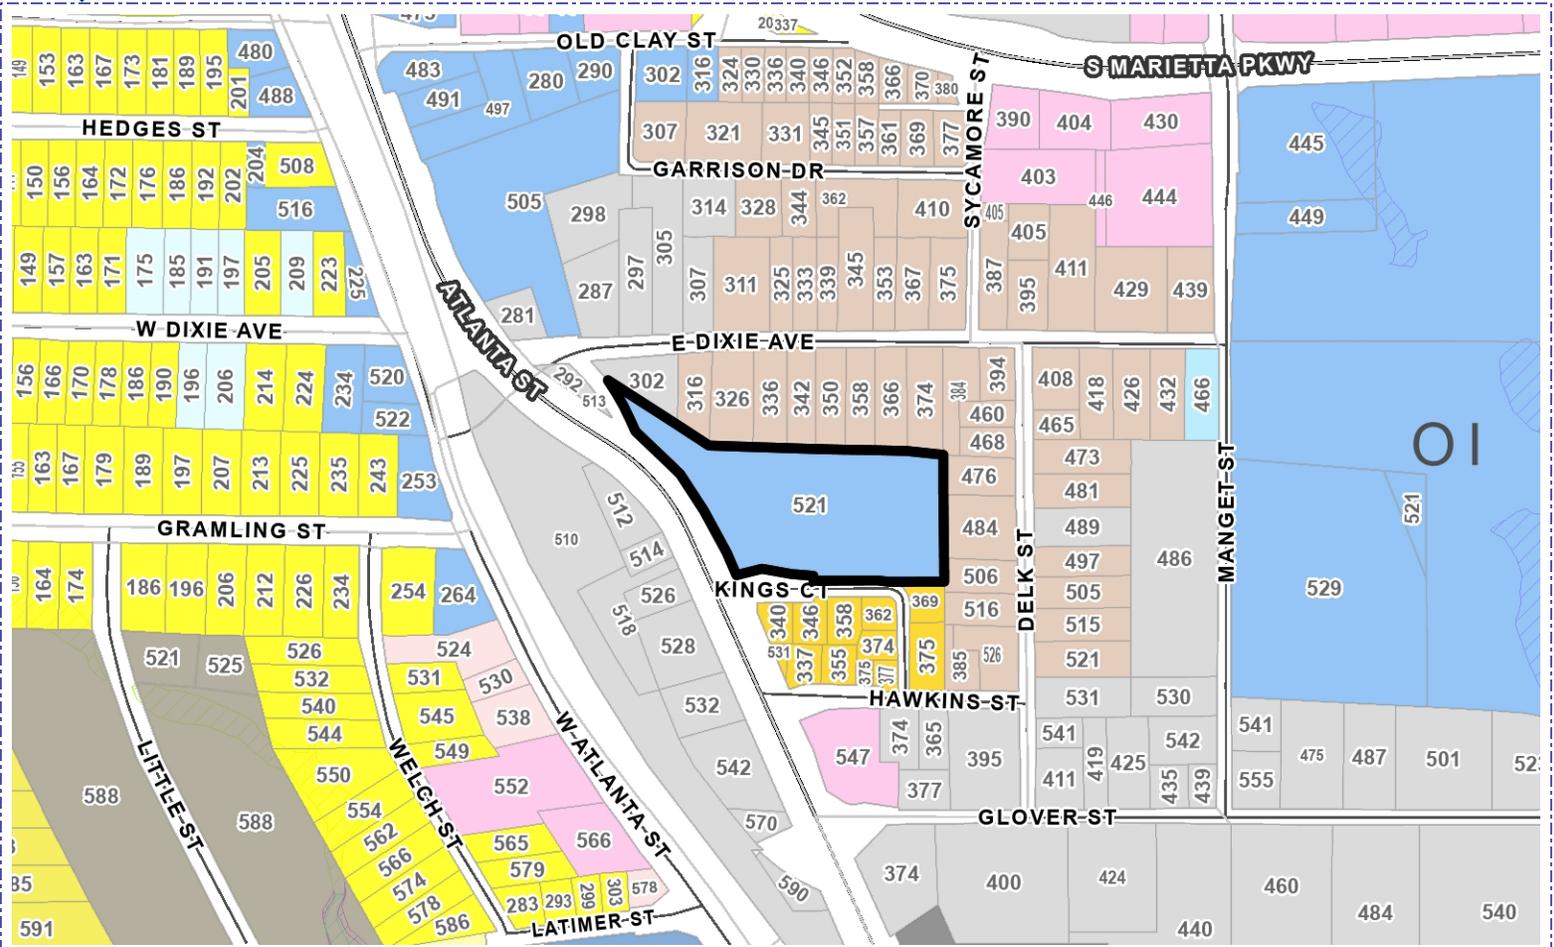

**For additional information including questions about virtual participation, please call the Planning and Zoning Office (770) 794-5669.**

**Accessibility to Meetings:** If you believe you may need the City/BLW to provide special accommodations in order to attend/or participate in any of the above meetings, please call ADA Coordinator at 770-794-5558 no later than 48 hours before the date of the above meeting.

1" = 1'-0" P1-PL-P1X-TREE-01

**GENERAL PLANTING NOTES:**

1. ALL PLANTS MUST BE HEALTHY, VIGOROUS MATERIAL, FREE OF PESTS AND DISEASES. PLANTS SHALL BE NURSERY GROWN, FRESHLY DUG, NORMALLY SHAPED, AND WELL-BRANCHED, FULL FOLIAGED WHEN IN LEAF AND WITH HEALTHY, WELL-DEVELOPED ROOT SYSTEMS.
2. ALL PLANTS FURNISHED SHALL BE FREE OF ANY INSECT INFESTATIONS OR THEIR EGGS AND SHALL HAVE BEEN GROWN UNDER CLIMATIC CONDITIONS WITH TEMPERATURE EXTREMES SIMILAR TO THOSE OF THE LOCALITY OF THE PROJECT FOR A MINIMUM OF TWO (2) YEARS PRIOR TO USE ON THIS PROJECT.
3. ALL PLANTS MUST BE CONTAINER-GROWN OR BALLED AND BURLAPPED AS INDICATED ON THE PLANT LIST.
4. ALL PLANTS SHALL BE TRUE TO SPECIES AND VARIETY. PLANTS USED WHERE SYMMETRY IS REQUIRED SHALL MATCH AS NEARLY AS POSSIBLE. NO SUBSTITUTING WILL BE PERMITTED WITHOUT WRITTEN PERMISSION OF THE LANDSCAPE ARCHITECT.
5. ALL TREES MUST BE SELF-SUPPORTING WITH STRAIGHT TRUNKS, WITH LEADERS INTACT, FULL-HEADED, AND MEET REQUIREMENTS SPECIFIED.
6. ALL TREES MUST BE GUYED OR STAKED AS SHOWN ON DETAILS.
7. ALL PLANTS AND PLANTING AREAS MUST BE COMPLETELY MULCHED WITH 3" PINESTRAM OR MULCH.
8. ALL PLANTS ARE SUBJECT TO THE APPROVAL OF THE LANDSCAPE ARCHITECT AND THE OWNER BEFORE, DURING, AND AFTER INSTALLATION UNTIL THE DATE OF FINAL ACCEPTANCE.
9. ALL PLANTS SHALL MEET STANDARDS SET FORTH IN AMERICAN STANDARD FOR NURSERY STOCK. THESE STANDARDS REPRESENT GUIDELINE SPECIFICATIONS ONLY AND CONSTITUTE MINIMUM QUALITY REQUIREMENTS FOR PLANT MATERIAL.
10. SPECIFIC REQUIREMENTS CONCERNING THE VARIOUS SPECIES AND THE MANNER IN WHICH THEY ARE TO BE PLANTED ARE SHOWN ON THE DRAWING AND PLANT LIST.
11. STOCK FURNISHED IN A SIZE RANGE SPECIFIED SHALL BE INTERPRETED TO MEAN THAT NOT LESS THAN 50% SHALL BE OF THE MAXIMUM SIZE SPECIFIED WITHIN EACH RANGE.
12. THE DETERMINING MEASUREMENTS FOR TREES SHALL BE THE CALIPER HEIGHT AND SPREAD. CALIPER SHALL BE TAKEN 6" ABOVE THE GROUND FOR TREES UP TO 4" CALIPER AND 12" ABOVE THE GROUND FOR LARGER SIZES. HEIGHT AND SPREAD DIMENSIONS SPECIFIED REFER TO THE MAIN BODY OF THE PLANT AND NOT FROM BRANCH TIP TO BRANCH TIP. TAKE MEASUREMENTS WITH BRANCHES IN NORMAL POSITION.
13. PRIOR TO CONSTRUCTION, THE LANDSCAPE CONTRACTOR SHALL BE RESPONSIBLE FOR LOCATING ALL UNDERGROUND UTILITIES AND SHALL AVOID DAMAGE TO ALL UTILITIES DURING THE COURSE OF WORK. THE LANDSCAPE CONTRACTOR IS RESPONSIBLE FOR REPAIRING ANY AND ALL DAMAGE TO UTILITIES, STRUCTURES, SITE APPURTENANCES, ETC. WHICH OCCURS AS A RESULT OF THE LANDSCAPE CONSTRUCTION.
14. THE LANDSCAPE CONTRACTOR IS RESPONSIBLE FOR VERIFYING ALL QUANTITIES SHOWN ON THESE PLANS BEFORE PRICING THE WORK. THE LANDSCAPE CONTRACTOR SHALL NOTIFY THE LANDSCAPE ARCHITECT IF ANY DISCREPANCIES ARE FOUND.
15. THE LANDSCAPE CONTRACTOR IS RESPONSIBLE FOR MAINTAINING ALL PLANTING (INCLUDING BUT NOT LIMITED TO: WATERING, SPRAYING, MULCHING, FERTILIZING, ETC.) OF PLANTING AREAS AND LAWNS UNTIL THE WORK IS ACCEPTED IN TOTAL BY THE OWNER. THE OWNER SHALL PROVIDE WATER.
16. THE LANDSCAPE CONTRACTOR SHALL COMPLETELY GUARANTEE ALL PLANT MATERIAL FOR A PERIOD OF NINETY (90) DAYS BEGINNING AT THE DATE OF FINAL ACCEPTANCE. THE LANDSCAPE CONTRACTOR SHALL PROMPTLY MAKE ALL REPLACEMENTS BEFORE OR AT THE END OF THE GUARANTEE PERIOD (PER THE DIRECTION OF THE OWNER).
17. THE OWNER AGREES TO PERFORM ALL LANDSCAPE MAINTENANCE (INCLUDING WATERING) THROUGHOUT THE NINETY (90) DAY GUARANTEE PERIOD UNLESS OTHERWISE DETERMINED.
18. AFTER DUG AT THE NURSERY SOURCE, ALL TREES IN LEAF SHALL BE ACCLIMATED FOR TWO WEEKS UNDER A MIST SYSTEM PRIOR TO INSTALLATION.
19. ANY PLANT MATERIAL WHICH DIES, TURNS BROWN OR DEFOLIATES PRIOR TO TOTAL ACCEPTANCE OF THE WORK SHALL BE PROMPTLY REMOVED FROM THE SITE AND REPLACED WITH MATERIAL OF THE SAME SPECIES, QUANTITY, SIZE, AND MEETING ALL PLANT LIST SPECIFICATIONS.

**Proposed food truck location – to the right of the main entrance**

**Proposed food truck location left of the main entrance**

---

## STAFF ANALYSIS

### *Location Compatibility*

Red Hare Brewing Co. LLC is seeking a Special Land Use Permit (SLUP) for the property at 1998 Delk Industrial Boulevard. The subject property and all surrounding properties are zoned LI (Light Industrial), except the property to the rear (west of the property) that is zoned RM-12 – Residential Multi-family in unincorporated Cobb County. The 1.2 acre property has been operated by Red Hare Brewing Co. since 2011. The surrounding businesses consist of wholesale, sales office, contractors, and other related industrial businesses. The applicant wishes to add to its location a mobile retail food establishment (food truck) to operate permanently on the property.

### *Use Potential and Impacts*

The applicant's SLUP request would allow a food truck to operate and remain on-site permanently. The food truck would operate six (6) days a week during normal business hours, which are listed as:

**Tuesday-Thursday 3:00-9:00pm**

**Friday 3:00-10:00pm**

**Saturday 12:00-10:00pm**

**Sunday 12:30-7:00pm**

The subject property currently has outdoor seating in the front yard and toward the northeastern section of the site. Based on the submitted site plan, the applicant proposes two potential locations for the food truck – one directly in front of building, left of the main entrance; and the other to the side of building, right of the main entrance. Either placement must be at least 10 feet from the main structure per Marietta Fire Department.

As conditionally allowed by the Director of Development Services, mobile retail food establishments are allowed on property zoned LI according to the restrictions listed below:

- a) Written permission of the property owner is obtained.
- b) Such use does not last longer than 3 days consecutively and 12 days annually.
- c) These uses shall be located at least 50 feet from any property line and not within any public right-of-way or City owned property, unless otherwise authorized by the City.
- d) If property is within fifty (50) feet of a residentially zoned parcel, measured property line to property line, then food truck operations shall cease at 9:00 p.m.
- e) Adequate paved parking, ingress and egress are provided on site.
- f) A temporary use permit is applied for and approved by the Director of the Department of Development Services.
- g) The Board of Zoning Appeals shall not issue and are not granted the authority to issue variances to any of the regulations relating to Mobile Retail Establishments; all such variance requests must be submitted to City Council. Variances for mobile food establishments shall be considered according to the criteria defined under §712.01 (E).

Staff does not have the authority to allow a food truck for more than twelve (12) days a year. In addition, based on the subject property's proximity to a residential property, current regulations require that the food truck operation must cease at 9:00 p.m. Any relief from these conditions could only be authorized by City Council. Although the subject property has never operated as an eating establishment, it has provided regular outdoor seating for guests.

The subject property's Future Land Use designation is IW (Industrial Warehousing). The purpose of IW is to *provide areas that can support light industrial, office/warehouse and distribution uses, and the vehicular traffic associated with such uses*. Compatible zonings include LI, OS, and PID. The food truck is an accessory use to support the existing business, which is compatible with a future land use of IW and may also support the surrounding industrial businesses. Therefore, this SLUP request is supported by the City's Comprehensive Plan.

### *Environmental Impacts*

Food service qualifies as an MS4 "highly-visible pollutant source" facility due to food waste. Proof of proper methods for grease and wash water storage and disposal would be required. Otherwise, no floodplains, wetlands, topographical concerns, streams, or endangered species are present on the site.

### *Economic Functionality*

There has been consistent business license history on the property, suggesting it is a functioning property as currently zoned. Broadening the types of allowed uses may increase the occupancy of the building. However, because the property was built specifically for industrial use, it does not contain the aspects of food preparation and/or disposal that is needed to operate any eating establishment.

It should also be noted that Red Hare Brewing Co. LLC has discussed a proposal to add a location on the Marietta Square.

### *Infrastructure*

The proposed locations for the food truck would not be within any parking area so the existing amount of parking spaces would be maintained. The site plan provided does not have the parking spaces clearly marked. However, aerial images indicate there are approximately seventeen (17) spaces on site, which would satisfy the requirements for a manufacturing facility with an accessory food trailer.

This request for a food truck should not have any additional impacts on the education, water, sewer, electricity, or other public infrastructure in the area as long as the proper food disposal practices are conducted.

### *History of Property*

The Board of Zoning Appeals previously approved the following variances:

- V2014-57: Variance to reduce the required landscape buffer from 50' to 10' to accommodate new parking lot with the stipulation that the City Arborist inspect the property to determine whether additional evergreen trees should be required, as described and depicted in that certain letter dated October 27, 2014 from D. Boyd Johnson to the City of Marietta Board of Zoning Appeals.  
*\*\*This parking area was never built.*
- V2015-19: Variance to allow the use of metal siding on the front and side of a building facing a roadway.

There is no history of any Special Land Use Permits or rezonings for the subject property.

### *Other Issues*

Based on the current pandemic state, the outdoor seating area shall comply with social distancing orders and all utility hook ups shall be screened from view from the public right-of-way.

City Council shall consider, at a minimum, the following in its determination of whether or not to grant a Special Land Use Permit:

1. *Whether or not there will be a significant adverse effect on the neighborhood or area in which the proposed use will be located.*
2. *Whether or not the use is compatible with the neighborhood.*
3. *Whether or not the proposed use will constitute a nuisance as defined by state law.*
4. *Whether or not property values of surrounding property will be adversely affected.*
5. *Whether or not adequate provisions are made for parking and traffic considerations.*
6. *Whether or not the site or intensity of the use is appropriate.*
7. *Whether or not adequate provisions are made regarding hours of operation.*
8. *The location or proximity of other similar uses (whether conforming or nonconforming).*
9. *Whether or not adequate controls and limits are placed upon commercial deliveries.*
10. *Whether or not adequate landscaping plans are incorporated to ensure appropriate transition.*
11. *Whether or not the public health, safety and welfare of the surrounding neighborhoods will be adversely affected.*

---

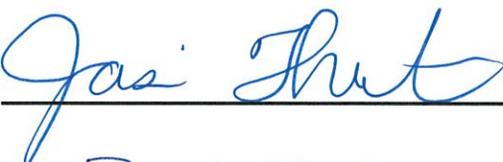

## ANALYSIS & CONCLUSION

Red Hare Brewing Co. LLC is seeking a Special Land Use Permit (SLUP) for the property at 1998 Delk Industrial Boulevard. The subject property and all surrounding properties are zoned LI, except the property to the rear that is zoned RM-12 in Cobb County. The 1.2 acre parcel has been operated by Red Hare Brewing Co. since 2011. The surrounding businesses consist of wholesale, sales office, contractors, and other related industrial businesses. The applicant wishes to add to its location a mobile retail food establishment (food truck) to operate permanently on the property.

The applicant’s SLUP request would allow a food truck to operate six (6) days a week during normal business hours. The subject property currently has outdoor seating in the front yard and toward the northeastern section of the site. Based on the submitted site plan, the applicant proposes two potential locations for the food truck – one directly in front of building, left of the main entrance; and the other to the side of building, right of the main entrance. Either placement must be at least 10 feet from the main structure per Marietta Fire Department.

Staff does not have the authority to allow a food truck for more than twelve (12) days a year. In addition, based on the subject property’s proximity to a residential property, the food truck operation must cease at 9:00 p.m. unless explicitly authorized by City Council to operate later. Although the subject property has never operated as an eating establishment, it has provided regular outdoor seating for guests.

The subject property’s Future Land Use designation is IW, which is compatible with LI, OS, and PID zonings. The food truck is an accessory use to support the existing business, which is compatible with a future land use of IW. Therefore, this SLUP request is supported by the City’s Comprehensive Plan.

## DATA APPENDIX

### *CITY OF MARIETTA - WATER*

---

Is a water line adjacent to the property?	Yes
If not, how far is the closest water line?	N/A
Size of the water line?	10"
Capacity of the water line?	A fire flow test may be required
Approximate water usage by proposed use?	Not provided

### *CITY OF MARIETTA - WASTEWATER*

---

Is a sewer line adjacent to the property?	Yes
If not, how far is the closest sewer line?	N/A
Size of the sewer line?	8"
Capacity of the sewer line?	A.D.F. Peak
Estimated waste generated by proposed development?	Not provided
Treatment Plant Name?	Cobb County
Treatment Plant Capacity?	Cobb County
Future Plant Availability?	Cobb County

**DATA APPENDIX CONTINUED**

***DRAINAGE AND ENVIRONMENTAL CONCERNS***

Does flood plain exist on the property:	<u>Yes</u>
What percentage of the property is in the flood plain?	<u>20%</u>
What is the drainage basin for the property?	<u>Rottenwood Creek</u>
Is there potential for the presence of wetlands as determined by the U.S. Environmental Protection Agency?	<u>No</u>
If so, is the use compatible with the possible presence of wetlands?	<u>No</u>
Do stream bank buffers exist on the parcel?	<u>Yes</u>
Are there other topographical concerns on the parcel?	<u>No</u>
Are there storm water issues related to the application?	<u>No</u>
Potential presence of endangered species in the area?	<u>No</u>

**Additional Comments:**

- Full site development plans required
- Site plans must address what methods will be proposed for used grease, wash water storage and/or disposal

***TRANSPORTATION***

What is the road effected by the proposed change?	<u>Delk Industrial Boulevard</u>
What is the classification of the road?	<u>Local</u>
What is the traffic count for the road?	<u>NA</u>
Estimated # of trips generated by the proposed development?	<u>NA</u>
Estimated # of pass-by cars entering proposed development?	<u>NA</u>
Do sidewalks exist in the area?	<u>No</u>
Transportation improvements in the area?	<u>None</u>
If yes, what are they?	<u></u>

---

## DATA APPENDIX CONTINUED

### EMERGENCY SERVICES

---

Nearest city or county fire station from the development?	1160 Franklin Gateway
Distance of the nearest station?	0.3 miles
Most likely station for 1 <sup>st</sup> response?	55
Service burdens at the nearest city fire station (under, at, or above capacity)?	Under

#### Comments:

- Unit can be no closer than 10 feet from the building.
- All state requirements for food truck or mobile food vendors must be met.
- If variable food trucks, each will have to be inspected each time. If same vendor and same unit inspection not required each time.
- 

### MARIETTA POWER - ELECTRICAL

---

Does Marietta Power serve this site?      Yes   x                        No           

If not, can this site be served?              Yes                                 No           

What special conditions would be involved in serving this site?

---

## STAFF ANALYSIS

### *Location Compatibility*

The applicant, ZMW LLP, is requesting the rezoning of 590 Commerce Park Drive from LI (Light Industrial) to LI with an additional use so that an individual suite may be used by LGE Credit Union. The property has been used as an office park with businesses such as insurance companies, tool repairs/services, and a real estate agency. The property is approximately 3.277 acres and sits at the corner of South Fairground Street and Commerce Park Drive. The parcels to the east, north, and south of the subject property are also zoned LI, while the property across South Fairground Street to the west is zoned OI (Office Institutional). The applicant's request is to allow the operation of a bank in a Light Industrial zoning district.

### *Use Potential and Impacts*

The subject property contains a one-story building, approximately 39,769 square feet in size, that was built in 1996. The building has consistently been used for various professional offices such as real estate agency, insurance office, tool repair, and warehousing. The applicant is not proposing any changes to the site as a part of this request. LGE Credit Union wishes to relocate from 430 Commerce Park Drive to the subject property due to the proximity of the new location to the old location. However, despite both properties being zoned Light Industrial, banks or financial institutions are not listed as a permitted use in LI zoning districts. An additional use would be required to operate a bank at the new location.

The applicant has stated that only one suite will be used as a bank and a walk-up ATM will be installed near the front entrance of the building. Modern banks operate similarly to other professional and administrative offices in that most customer transactions are conducted on-line and the offices are primarily used by employees. Since this location is on the edge of the industrial area and easily accessible to a collector road, a low intensity use such as a bank is appropriate and consistent in character and impact to other industrial uses.

The Future Lane Use (FLU) of this parcel, as specified in the City's Comprehensive Plan is Industrial Warehousing (IW). The purpose of IW is to *provide areas that can support light industrial, office/warehouse and distribution uses, and the vehicular traffic associated with such uses*. It is important to protect IW districts from encroachment of residential uses and the rezoning of IW properties to any residential designation is highly discouraged. Compatible zonings include LI, OS, and PID. The proposed zoning and usage of LI with an additional usage of a bank is consistent and supported by the City's Comprehensive Plan.

### *Environmental Impacts*

Because the applicant is not proposing any site modifications, there should be no negative environmental impacts resulting from this rezoning. No floodplains, wetlands, topographical concerns, streams, or endangered species are present on the site.

### *Economic Functionality*

There has been consistent business license history on the property, suggesting it is a functioning property as currently zoned. Broadening the types of allowed uses may increase the occupancy of the building. However, because the property was built specifically for office use, it does not contain the visibility and options for signage that most retail and personal service businesses need to thrive.

### *Infrastructure*

There are no site modifications being proposed. The subject property contains approximately 157 parking spaces for the 39,769 square foot building, or one parking space for every 300 square feet. The applicant has stated thirty-five (35) parking spaces will be designated for the bank. Section 716.07 requires professional and general offices have one space for every 350 square feet, while banks are required to have one space for every 300 square feet of building area. Based on the provided parking spaces and building square footage, parking is provided at approximately one space for every 253 square feet of building space. As a result, there are enough parking spaces on site to satisfy the City's parking requirement.

Otherwise, allowing a bank as a permitted use on this property should not have any additional impacts on the transportation, education, water, sewer, electricity, or other public infrastructure in the area.

### *History of Property*

The Board of Zoning Appeals approved variances for a parking expansion at this property in 2008. Per V2008-24 the following variances were granted:

- Variance to increase the maximum impervious surface coverage from 75% to 78.99% [*§708.26 (H)*]
- Variance to reduce the required rear yard setback for an accessory structure from ten (10) feet to five (5) feet [*§708.26 (F)*].

There is no history of any Special Land Use Permits or rezonings for the subject property.

**Department of Development Services**  
205 Lawrence Street  
Marietta, Georgia 30060  
Rusty Roth, AICP, Director

---

### *Overlay District Issues*

This property is located within Tier B of the Commercial Corridor Design Overlay District. According to the City's Ordinance, "*the general purpose of the Tier B design overlay is to encourage private development to integrate some pedestrian design features and aesthetic improvements into automobile-oriented corridors...*" [§712.09 (G)]. Compliance with the Overlay requirements would only be expected if the renovation cost of construction exceeds 50% of the building's value.

---

## ANALYSIS & CONCLUSION

ZMW LLP is requesting the rezoning of 590 Commerce Park Drive from LI to LI with an additional use so that an individual suite may be used by LGE Credit Union. The property is approximately 3.277 acres and sits at the corner of South Fairground Street and Commerce Park Drive. The parcels to the east, north, and south of the subject property are also zoned LI, while the property across South Fairground Street to the west is zoned OI. The applicant’s request is to allow the operation of a bank in a Light Industrial zone.

The subject property contains a one-story building, approximately 39,769 square feet in size, that was built in 1996. The building has consistently been used for various professional offices such as real estate agency, insurance office, tool repair, and warehousing. The applicant is not proposing any changes to the site. LGE Credit Union to the subject property due to the proximity of the new location to the old location. However, despite both properties being zoned Light Industrial, banks or financial institutions are not listed as a permitted use in LI zoning districts. Since banks operate similarly to other professional offices in LI, the proposed use should not have any adverse impact to the surrounding area.

The Board of Zoning Appeals previously approved the following variances (V2008-24) for a parking expansion at this property in 2008. These variances would need to be included if the property were to be rezoned as requested:

- Variance to increase the maximum impervious surface coverage from 75% to 78.99% [*§708.26 (H)*]
- Variance to reduce the required rear yard setback for an accessory structure from ten (10) feet to five (5) feet [*§708.26 (F)*].

The Future Lane Use (FLU) of this parcel, as specified in the City’s Comprehensive Plan is Industrial Warehousing (IW). The purpose of IW is to *provide areas that can support light industrial, office/warehouse and distribution uses, and the vehicular traffic associated with such uses.* It is important to protect IW districts from encroachment of residential uses and the rezoning of IW properties to any residential designation is highly discouraged. Compatible zonings include LI, OS, and PID. The proposed zoning and usage of LI with an additional usage of a bank is consistent and supported by the City’s Comprehensive Plan.

Ladies and Gentlemen,

LGE Community Credit Union for the last 40 years had its main office and an ancillary branch located at 430 Commerce Park Drive. Cobb County Public Safety purchased and moving into that location displacing our branch operation forcing a move of the branch operation to a nearby location. We chose 590 Commerce Park Drive, because of its proximity to the former branch and the convenience to long term members who have been utilizing that branch, many from the Lockheed Martin location just down the street.

Additionally, LGE had a similar operation for several years in the very same location for which we are requesting a variance to continue that use. All that we request is the ability, to utilize this space to continue servicing members in Marietta that use LGE for their banking needs mainly through concierge personnel available inside the building. We would very much appreciate your consideration in granting of this request.

Sincerely

A handwritten signature in blue ink, appearing to read "Chris A. Leggett", is written over the word "Sincerely".

Chris A. Leggett
