

APPENDIX B: RESOURCE DESIGNATION

Within the District there are two distinct character areas, which are: The Square and Powder Springs Corridor. Buildings found in The Square character area typically are historic commercial buildings with little or no setback from the public rights-of-way. The Powder Springs Corridor character area has a mix of modern and historic commercial buildings and a few residential resources. For more information on the character-defining features of these areas refer to Chapter 2: Marietta Historic District. Buildings within these character areas are located on the Designation Map (found at the end of this document) by the following designations, historic or contemporary, per Article 7-8-8-040 Classification of building and structures. (Code 1978, § 7-5004; Ord. No. 5575, 6/12/96)

1. Historic: Historic buildings are those which possess identified historical or architectural merit of a degree that warrants their preservation.
2. Contemporary: Contemporary buildings are those buildings or structures other than historic.

The following pages are a classification listing for all of the buildings within the Marietta Historic District. This listing includes the Parcel Identification Number (PIN); Address; Construction Date (if known); Designation; and a photograph (if available). A Table summarizing this information is found on page B-55. Please note, that vacant parcels are identified as "contemporary."

***Additions and revisions to inventory approved by HBR on July 2, 2012 under Legistar #20120279.*
