SUPPRESSION DIVISION

Firefighters at the Marietta Fire Department have spent 2015 responding to and mitigating a number of emergencies, to include fires, medical calls, technical rescues, hazardous materials, and vehicle accidents, to name a few. Much of the year was spent training, performing business and hydrant inspections, and pressure testing fire hose, preparing for the times emergencies arise.

TRAINING DIVISION

The training division is responsible for conducting training for the entire department, in all areas of firefighting to include live fire training, medical training, hazardous materials and any other necessary requirements, to maintain certifications. This gives the department the tools to be prepared for all incidents to continue serving the city of Marietta. The training division is excited to begin training a new recruit class in 2016.

PREVENTION DIVISION

The prevention division is constantly seeking ways to keep Marietta safe. With education programs, inspections, plan review and investigations there are always opportunities to improve, all areas of the community. This division is continuously looking for ways to improve life safety in the city of Marietta.

CHIEFS MESSAGE

At the Marietta Fire Department we are especially proud of our 2015 accomplishments. For the first time in the department's history, a class 1 ISO rating was achieved. I would like to thank the men and women of the fire department, water system and our communications partner for the years of hard work and dedication, which made reaching this milestone possible.

I am pleased to see the first of five new engines ordered this year, being placed into service. Thank you to the citizens for authorizing our capital improvement budget and SPLOST, which made this purchase possible. This will allow for our department to continue protecting and serving those who live and work in the city of Marietta.

The fire department is also excited to see a new station 56 in the works. Plans and details are now being developed. Groundbreaking will be in 2016, making the station a reality.

Looking back over 2015, I see many positive improvements within the fire department and city and am excited to see what 2016 brings. I would like to personally thank members of the community, department and elected officials for their continuous support. Our success is a reflection of the commitment shown by each of you.

Jackie T Gibbs
Fire Chief
