Variance Case #: V2016-16 **Legistar #:** 20160331
Board of Zoning Appeals Hearing: Monday, May 23rd, 2016 – 6:00 p.m.
Property Owner: Lee Jaraysi
3641 Post Oak Tritt Road
Marietta, GA 30062
Applicant: Same as above
Address: 585 Franklin Gateway
Land Lot: 578 **District:** 17 **Parcel:** 0020
Council Ward: 7A **Existing Zoning:** CRC (Community Retail Commercial)

Special Exception / Special Use / Variance(s) Requested:

1. Variance to allow more than 50% of the windows containing signage account for more than 50% of the window face [*§714.04 (E)*]
2. Variance to allow wall signage cover more than 15% and/or 5% of the wall face. [*§714.04 (B)*]

Statement of Fact

As per section 720.03 of the Comprehensive Development Code of Marietta, the Board of Zoning Appeals may alter or modify the application of any such provision in the Development Code because of unnecessary hardship if doing so shall be in accordance with the general purpose and intent of these regulations, or amendments thereto, and only in the event the board determines that by such alteration or modification unnecessary hardship may be avoided and the public health, safety, morals and general welfare is properly secured and protected. In granting any variance the board of zoning appeals shall designate such conditions in connection therewith as will, in its opinion, secure substantially the objectives of these regulations and may designate conditions to be performed or met by the user or property owner, out of regard for the public health, safety, comfort, convenience, and general welfare of the community, including safeguards for, with respect to light, air, areas of occupancy, density of population and conformity to any master plan guiding the future development of the city. The development costs of the applicant as they pertain to the strict compliance with a regulation may not be the primary reason for granting a variance.

Criteria:

1. Exceptional or extraordinary circumstances or conditions *are/are not* applicable to the development of the site that do not apply generally to sites in the same zoning district.
2. Granting the application *is/is not* necessary for the preservation and enjoyment of a substantial property right of the applicant, and to prevent unreasonable property loss or unnecessary hardship.
3. Granting the application *will/will not* be detrimental or injurious to property or improvements in the vicinity of the development site, or to the public health, safety, or general welfare.

Recommended Action:

Denial. The owner – Lee Jaraysi – is requesting sign variances for the property at 585 Franklin Gateway, Nazareth Grocery – which is located within the Nazareth Plaza – at the southwest corner facing towards South Marietta Parkway and Franklin Gateway. The subject property and the properties to the west, east, and south are all zoned CRC (Community Retail Commercial). The hotel north of the property is zoned OHR (Office High Rise). The subject property is along Franklin Gateway – a collector road – and it’s also placed off of Commerce Avenue – a local road – which is mainly used to access the other businesses along the thoroughfare and as a connection between Franklin Gateway and Parkway Place.

Every window pane on the front and east side of the tenant space is covered in product advertisements – there is also a variety of different window signage on the west side of the tenant space – at its entrance. The applicant is requesting variances to exceed the allowable amount of window signage. Section 714.04 (E) of the Sign Ordinance states: *No more than 50% of the windows of a business shall be used to display window signs and the signage in a single window shall not account for more than 50% of a window face.* Further, the zoning regulations limit signage such that: *“total permissible sign area for a single business may be incorporated within wall, canopy, under canopy, projecting or window signage provided that in aggregate, the total sign area does not exceed the 15% limit.*

In his letter, Mr. Jaraysi has stated that the window signage helps with preserving their inventory from deteriorating, discoloration, and melting of the products from the result of direct sunlight. He also uses the window coverage for marketing grocery products.

Department of Development Services
205 Lawrence Street
Marietta, Georgia 30060
Brian Binzer, Director

Mr. Jaraysi has not provided any clear dimensions specifying the amount of signage covering the windows, but it is likely that the front and side of the building cover more than the permissible 15% of wall signage facing a public roadway.

No justifiable hardship has been provided that does not apply to every other similarly zoned business in the City. The building and its existing permitted signage is highly visible from Franklin Gateway – and the other permitted signage is highly visible from Commerce Avenue; but they are not seen from South Marietta Parkway as the property slopes downward from the street.

One of the main purposes of the sign ordinance is “*to eliminate visual clutter and blight, to provide an aesthetically appealing environment, and to provide for the orderly and reasonable display of advertising for the benefit of all the City’s citizens*”. Approval of this request would set a precedent that would be detrimental to the aesthetics of the City, and as a result, ***staff recommends denial of this variance request.***

RE: Variance Request for Nazareth Grocery Window Signage

Dear City Council:

We are requesting a variance for the signs placed on the windows at the front of the store. The signs are a combination of professional marketing posters and window treatments. In reviewing the request, we ask that you consider the two primary purposes for the signs being placed in their current locations: inventory preservation and marketing.

Inventory Preservation: The signs play a major role in preserving the inventory from deterioration, discoloration, and melting as a result of the sunlight coming through. As you may know, Nazareth Grocery is an international grocery store with a wide array of products from food to gifts. Having strong sun light coming through window can lead to: the discoloration of inventory, the fading of product labels and packaging, and major fluctuations in the store's inside temperature effecting the preservation of food. These results, among other things, affect customer experience and sales.

Marketing: We believe it is important to clarify that the signs are professionally designed and help market the uniqueness of the store. As mentioned before, Nazareth Grocery is an international grocery store with unique product lines that are difficult to find elsewhere. The signs provide both promotional benefits in highlighted the various products offered and aesthetic appeal to entice customers to enter the store.

Combined, inventory preservation and marketing can lead to both a decrease in sales and product quality. Thus, the signs were put in place with their design and placement in mind so to also preserve the appearance of the store. We ask that you grant the variance for the placement of these signs and consider the reasons stated above as well as the effects of removal of the signs.

Thank you for your time and consideration.

Respectfully,

Nazareth Grocery
