20200859 Proposed Revision to the Stream Buffer Protection Ordinance

The Metropolitan North Georgia Water Planning District (MNGWPD) has required all local governments within the MNGWPD, including the City of Marietta, to revise and adopt an ordinance in accordance with the MNGWPD model ordinance for stream buffer protection. This requirement will allow the City of Marietta to fulfill its responsibility to protect and maintain stream water quality.

The purpose of this update and revision is to address comments from a recent audit by the MNGWPD and to protect the public health, safety, environment, and general welfare; to minimize public and private losses due to erosion, siltation and water pollution; and to maintain stream water quality.

This will require two (2) public hearings by the Mayor and Council.

20200861 Proposed Revision to the Post-Development Stormwater Management for New Development and Redevelopment Ordinance

The Metropolitan North Georgia Water Planning District (MNGWPD) has required all local governments within the MNGWPD, including the City of Marietta, to revise and adopt an ordinance in accordance with the MNGWPD model ordinance for post-construction stormwater management for new development and redevelopment. This requirement will allow the City of Marietta to fulfill its responsibility and remain in compliance with the MNGWPD's requirements for the management of stormwater, post-construction, as related to the development and redevelopment of land. The purpose of this update and revision is to protect, maintain and enhance the public health, safety, environment and general welfare by establishing minimum requirements and procedures to control the adverse effects of increased post-construction stormwater runoff and nonpoint source pollution associated with new development and redevelopment.

Due to the numerous proposed changes, it is recommended that the current ordinance be replaced in whole with the proposed ordinance.

This will require two (2) public hearings by the Mayor & Council.
