“POLICING WITH A VISION”

LETTER FROM THE CHIEF

Given that 2021 was the second year of the pandemic, and the “Delta Variant” turned out to be more virulent than the 2020 strain of the pandemic, the Marietta Police Department (MPD) again adapted to change and carried on with great style and effectiveness throughout the year. In terms of manpower shortages experienced statewide and nationwide, MPD fully recovered by the end of the year and in the process effectively trained numerous promising new police officers. Overall, we are positioned for a brighter 2022 in terms of personnel.

In terms of crime in Marietta, we ended the year with a 4% overall increase in crimes against persons, likely a result of community-wide stress resulting from two years of pandemic. Nonetheless, compared to 2020, crimes against property were down city-wide by a full 10% in 2021. The most dramatic decrease was in crimes against society, i.e., drugs, weapons, prostitution, and gambling, were down a full 21% in 2021 compared with the prior year; 2020. If you average all three categories of crime, our overall crime rate for 2021 again declined to a historic low. There are many factors that contribute to crime rates, but it seems the most important tools the MPD used to fight crime in 2021 were the Public Safety Ambassadors freeing up officer’s time so they could engage in crime prevention activities and license plate reader cameras (Flock) that have been effective in helping us sort out criminals from the law-abiding public.

As we forge ahead in 2022, we, of course, will work to maintain all the initiatives that have led to our past successes, but we will focus more on community quality-of-life issues such as opioid addiction, mental illness and homelessness. The police can have an impact on these kinds of problems and working cooperatively with local, regional, and state agencies, we can lead the way in improving overall quality of life and in turn, preventing crime.

Sincerely,

A handwritten signature in blue ink. The signature is fluid and cursive, appearing to read "Dan Flynn". The "D" is particularly large and stylized.

Chief Dan Flynn

M-STAR

BACKGROUND

The M-STAR program was developed in 2000. The Marietta Police Department realized that more needed to be done to create a greater problem-solving partnership between the community and the police department. It is a way of policing that involves citizens, police officers, business owners, real time crime analysis, deploying manpower and follow-up. The program was originally planned to be a police department program but developed into a citywide philosophy. The purpose of M-STAR is to identify needs, issues, and concerns within the community and develop plans of action to address them.

MANAGEMENT

The city is divided into four zones, and each has a management team. The teams consist of a major, a lieutenant, two sergeants, and six patrol officers. A patrol officer was selected from each shift, the Community Response Unit, the Traffic Unit, and Investigative Services. In addition to the police officials, members from the other city departments were selected, as well. Each management team has representatives from the Fire Department, Code Enforcement, and the City Board of Lights and Water. Once these members were selected, the teams began to add residents and business owners from the community. The result is a core group of city officials, citizens, and business leaders who are dedicated to each zone.

ACCOUNTABILITY

The majors are accountable for all illegal activity and quality of life issues within their assigned zones. Crime statistics are analyzed monthly to identify crime spikes and problem areas. Town hall meetings are held regularly in each zone, and all residents and business owners are invited to attend and to actively participate.

M-STAR meetings were conducted virtually for most of 2021 due to COVID-19.

These meetings are designed to distribute information, but it also gives community members the opportunity to voice any needs, issues or concerns they have, as well as helping to develop solutions for them. The majors then meet with their management team to discuss solutions and develop plans to address identified problems. Once a month, the majors meet with Chief Flynn and the Deputy Chiefs to review crime statistics and the progress made on previously voiced concerns. The majors must be able to demonstrate how they are actively working on solutions to crime spikes and how they are resolving the action forms they have received since the previous meeting.

COMMUNITY CONCERN

This program has the added benefit of being able to track progress using action forms. Anytime a citizen or officer has a need, issue, or concern, an action form is generated. The major assigns a tracking number to the form and forwards it to the appropriate team member with suggestions on how to address the problem. Though some issues may require long-term solutions, most concerns can be resolved immediately. In these cases, the team member who handles the action form issue completes the form and returns it to the major. These action forms allow the majors to follow the progress and status of the issue. Majors are then able to follow up with citizens to inform them of progress and/or actions taken regarding the issue.

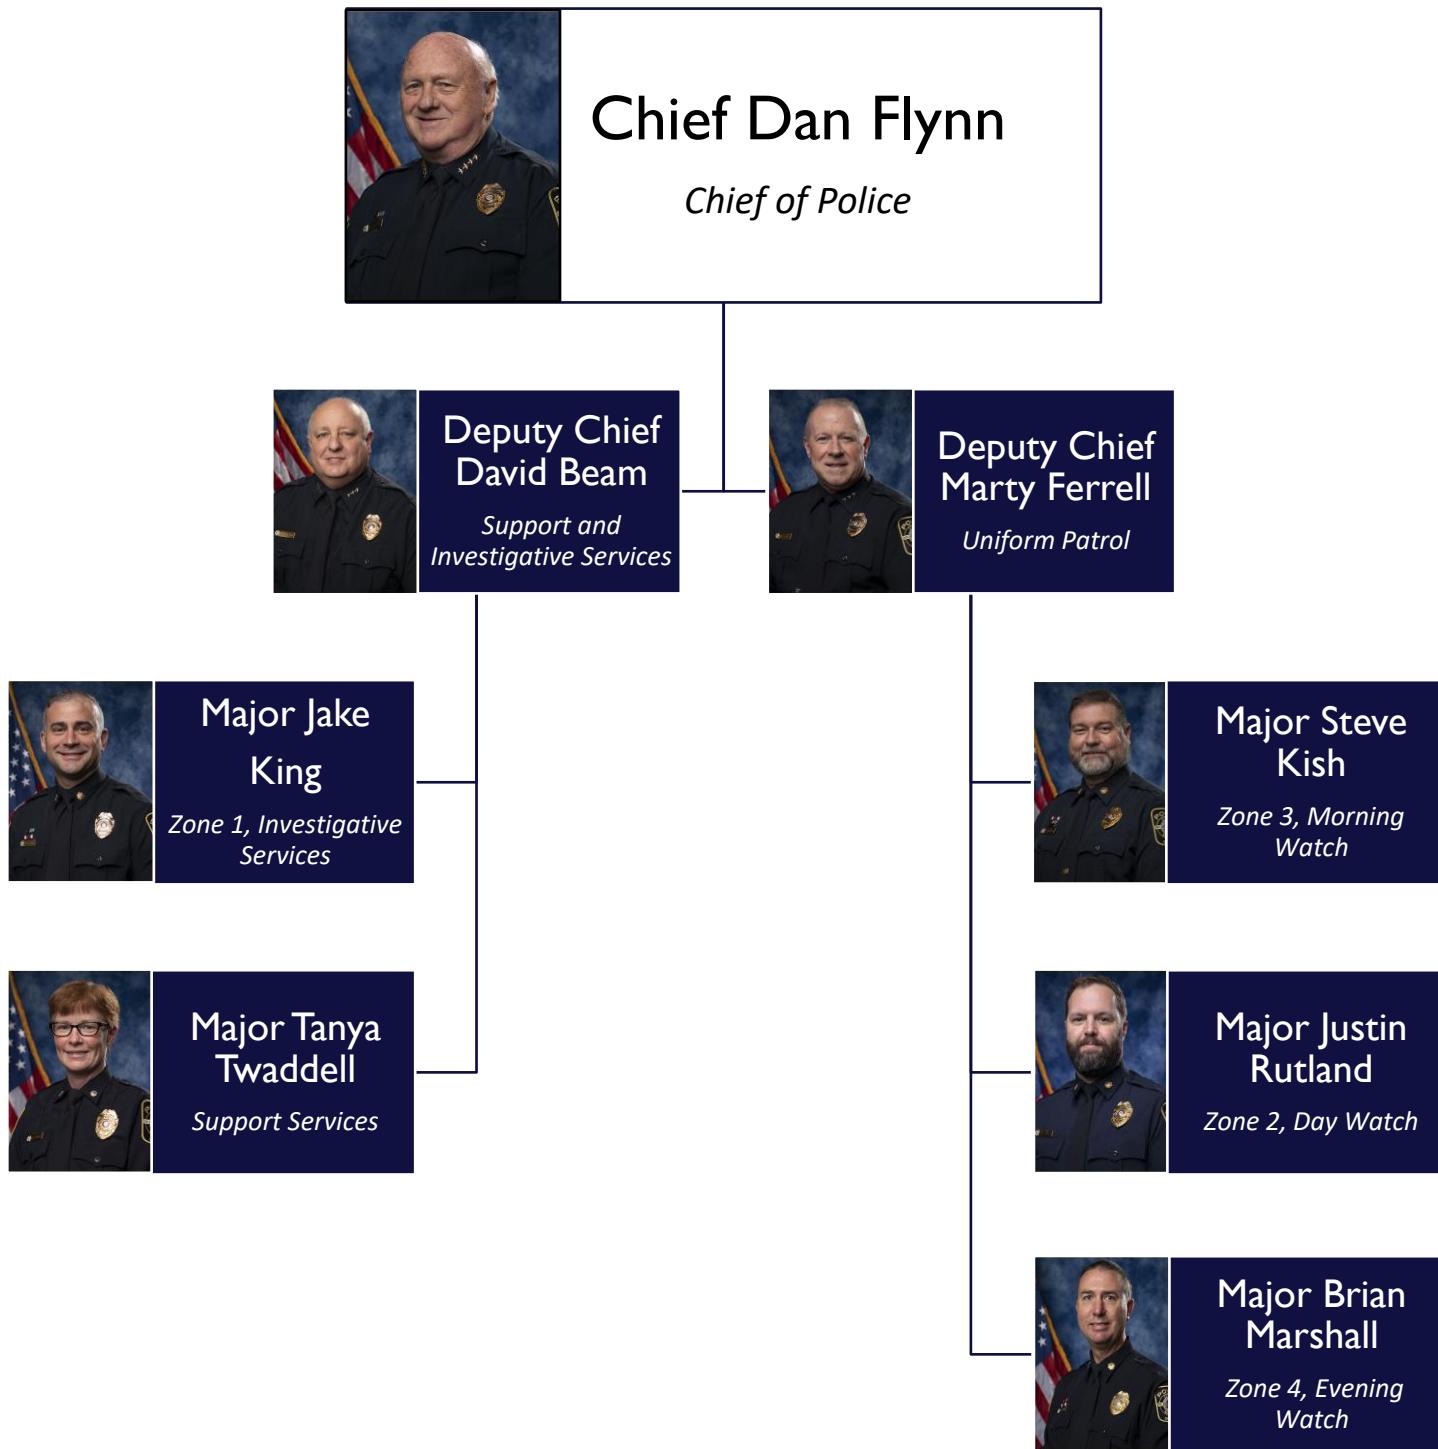

BENEFITS

The M-STAR program has proven to be an effective tool in building relationships between neighbors, businesses, and police officers. Police officers get to know citizens, and citizens get to know officers. The increased interaction builds trust and encourages two-way communication. In the coming years, we will be able to utilize the crime statistics, which are being gathered now, to forecast crime. The goal is to forecast potential crime activity and deploy manpower and resources to reduce the opportunity for criminal activity and remove it from the city.

2021 CRIME STATISTICS

2021 CRIME DATA

The following crime data shows reported incidents categorized in accordance with a statistical data collection system administered by the U.S. Department of Justice called the National Incident-Based Reporting System (NIBRS). In Memoriam

Major Steven Campisi

June 23, 1971 – July 20, 2021

Major Stephen Campisi came to us from Valdosta State University Police Department, where he worked first as a dispatcher then as a patrol officer. He met his wife, Linda at Valdosta State University, where they both obtained their bachelor's degrees. Steve and Linda moved to Marietta after he was recruited in a class at the Georgia Public Safety Training Center by Officer Willis. Steve was hired at the Marietta Police Department on December 11, 1995. In 1997, due to his experience in bicycle patrol in Valdosta, Steve was selected to help start up the MPD's Bicycle Patrol Unit, now the Community Response Unit. Steve later became a valuable member of the Investigative Services team, working high profile cases with great success. He was promoted to Sergeant in 2002 and eventually took command of the S.T.E.P. unit. While serving on the S.T.E.P. unit, Steve developed the very effective PEDS program to address the large number of pedestrian fatality accidents the city was experiencing. Steve was promoted to Lieutenant in 2007 and was charged with developing an action plan to deal with violent crime that was occurring on Franklin Road. His plan resulted in a significant number of arrests and a noticeable reduction in crime. Steve was assigned to Investigative Services as a Lieutenant where he was a very effective and respected leader. Steve was promoted to Major in 2018. As a Major, his command was Morning Watch, Zone 2 and the Critical Response Team. Steve was a well-respected and beloved member of these teams.

Steve obtained a Master of Public Administration degree through Columbus State University. He was a graduate of the Northwestern School of Police Staff & Command. Steve received the city's Alex Newsome Supervisor of the Year award in 2012. He also received two Difference Maker awards from Chief Flynn for excellent performance. Steve was very invested in enriching the careers of his fellow officers and made a significant, positive influence on the entire department.

Steve is survived by his wife Linda, and sons Christopher, Thomas, and William. It is with honor that we remember Major Stephen Campisi.
