PREVENTION DIVISION

The Prevention Division is constantly seeking improvements in fire and life safety for the citizens and visitors of the City of Marietta. The Prevention Division is active in a number of projects aimed at making those improvements through an array of extensive programs in education, inspections, plan review, and investigations

Working together with the Suppression Division, the Prevention Division is better able to serve the constantly growing need of our community.

TRAINING DIVISION

The Training Division is responsible for ensuring the professional competence of all emergency responders within the Marietta Fire Department. By combining classroom and live training, the division prepares our department for a wide range of emergencies.

Intense and skill specific training allows proper preparation for us to serve the community safely and more efficiently.

The Training Division also conducted a recruit class that resulted in eight probationary firefighters being placed on duty this year.

SUPPRESSION DIVISION

The Suppression Division is called upon to mitigate emergencies ranging from basic to advanced life support. These men and women also respond to structure fires, vehicle fires, technical rescues, and hazardous material situations. The job requirements for a firefighter are extensive and often dangerous. Therefore, top priority is placed on firefighters maintaining physical fitness so that dangerous jobs can be accomplished as safely as possible.

The Suppression Division also spent numerous hours performing hydrant inspections, business inspections, pre-plans and pressure testing fire hose to ensure preparedness for when an emergency arises.

CHIEF'S MESSAGE

2014 brought another year of continued improvement to our City and Marietta Fire Department. As we move into 2015, I would like to take a few moments to reflect on the accomplishments of 2014. The Annual Report consists of statistical numbers that represent the many families that the Marietta Fire Department touches each and every day. Our commitment to delivering outstanding emergency services will continue to be our top priority in the years to come.

As the economy continues to rebound, this coming year will offer many additional challenges to our department. The SPLOST (Special Purpose Local Option Sales Tax) passage allows us to better achieve and maintain our long term goals. This additional support will drive our vision of excellence forward for the decades to come.

In closing, I'd like to thank the community, members of the department, and the elected officials for their support in our constant pursuit in achieving our mission statement.

Jackie Gibbs
Fire Chief

MISSION STATEMENT

The mission of the City of Marietta Fire Department is to effectively prepare, provide, and promote services that minimize the loss of life and property resulting from fires, medical emergencies, and other disasters.
