	<u>Page</u>
 <u>SECTION 100 - INTRODUCTION</u>	
101. General Requirements	100-1
101.01 Use of This Document	100-1
101.02 Applicability	100-1
102. Plan Review Process	100-3
102.01 Water System	100-3
102.02 Sanitary Sewer System	100-4
102.03 Approval by other Government Agencies	100-5
102.04 General Utility Locations and Installation Requirements	100-5
103. Construction	100-5
103.01 Preconstruction Conference	100-5
103.02 Approved Plans	100-5
103.03 Notification	100-5
103.04 Contractor Qualifications	100-6
103.05 Damage to Water and/or Sewer Facilities	100-6
104. Inspection	100-6
105. As-Builts	100-7
106. One-Year Maintenance	100-8
107. Building Permits	100-9
 <u>SECTION 200 - WATER SYSTEM SPECIFICATIONS</u>	
201. Preconstruction Requirements	200-1
201.01 Water Pressure Flow Test	200-1
201.02 Plan Requirements	200-2
General Notes for Water System Construction	200-4
201.03 Contractor Qualifications	200-6
201.04 Erosion and Sedimentation Control Plan	200-6
201.05 Easement Acquisition	200-7
201.06 Construction Permitting	200-8
Sample Easement Agreement for Water Lines	200-9
Sample Easement Agreement for Water Meters	200-11

	<u>Page</u>
202. Design Criteria	200-13
202.01 General	200-13
202.02 Water Supply (All Water Supply Systems)	200-13
202.03 Minimum Water Main Sizes and Fire Hydrant Requirements	200-13
202.04 Water Main Extension Requirements	200-14
202.05 Fire Protection	200-14
202.06 Backflow Prevention	200-15
202.07 Location of Water Lines and Fixtures	200-15
202.08 Fire Line Metering Requirements	200-20
202.09 Water Mains on Private Roads	200-20
203. Materials	200-20
203.01 Water Main	200-21
203.02 Fire Hydrants	200-22
203.03 Valves and Accessories	200-23
203.04 General Requirements	200-28
204. Excavation and Construction	200-29
204.01 General	200-29
204.02 Trench Excavation	200-29
204.03 Backfilling	200-32
204.04 Laying Pipe	200-33
204.05 Thrust Restraint for Pressure Lines - Reaction Blocking	200-33
204.06 Setting Fire Hydrants	200-34
204.07 Setting Valves and Fittings	200-34
204.08 Placing of Steel Casing Pipe	200-35
204.09 Marking Location of Valves	200-35
204.10 Dewatering Trenches	200-35
204.11 Bracing, Sheeting, and/or Shoring	200-36
204.12 Location and Protection of Existing Underground Utilities	200-36
204.13 Connection to the Existing BLW Water System	200-36
204.14 Street Cuts	200-37
204.15 Standard Detailed Drawings	200-38
204.16 Clean-Up	200-38
204.17 Interruption of Water Supply During Construction	200-39
204.18 Barricades	200-39
204.19 Grassing	200-39

	<u>Page</u>
205. Inspection and Tests	200-40
205.01 General	200-40
205.02 Pressure and Leakage Testing	200-40
205.03 Disinfection	200-41
206. Other Requirements	200-43

SECTION 300 - SANITARY SEWER SYSTEM SPECIFICATIONS

301. Preconstruction Requirements	300-1
301.01 Sanitary Sewer Capacity Study	300-1
301.02 Plan Requirements	300-1
General Notes for Sanitary Sewer Construction	300-4
301.03 Contractor Qualifications	300-8
301.04 Erosion and Sedimentation Control Plan	300-8
301.05 Easement Acquisition	300-9
301.06 Construction Permitting	300-10
Sample Easement Agreement for Sanitary Sewer Lines	300-11
302. Design Criteria	300-13
302.01 General	300-13
302.02 Sanitary Sewers Separate from Storm Sewers	300-13
302.03 Non-Domestic Users	300-13
302.04 Sand and Oil/Grease Interceptors	300-13
302.05 Non-Wastewater Connections Prohibited	300-14
302.06 Sanitary Sewers Through Ponds and Lakes	300-14
302.07 Sizing Factors	300-14
302.08 Depth Requirements	300-15
302.09 Slope	300-16
302.10 Increasing Size	300-16
302.11 Ductile Iron Pipe	300-17
302.12 Sanitary Sewer Pipe Material Requirements	300-17
302.13 Subgrade and Pipe Bedding	300-17
302.14 Manholes	300-17
302.15 Protection of Water Supply	300-18
302.16 Service Laterals	300-19
302.17 Provisions for Future Extensions	300-20
302.18 Sanitary Sewer Line Extension Requirements	300-20
302.19 Polyethylene Encasement	300-20
302.20 Easements	300-20
302.21 Aerial Crossings of Creeks and Ravines	300-21

	<u>Page</u>
303. Materials	300-22
303.01 Sanitary Sewer Pipe	300-22
303.02 Casing Pipe	300-24
303.03 Service Wyes and Bends	300-25
303.04 Manholes	300-25
303.05 Concrete and Mortar	300-28
303.06 Reinforcing Steel	300-28
303.07 Brick	300-28
303.08 Subgrade Stabilizer Stone	300-28
303.09 Polyethylene Tubing For Ductile Iron Pipe	300-29
303.10 Casing Spacers	300-29
303.11 Concrete for Thrust Blocks and Thrust Collars	300-29
304. Excavation and Construction	300-29
304.01 General	300-29
304.02 Trench and Manhole Excavation	300-29
304.03 Installation of Sanitary Sewer	300-32
304.04 Making of Joints	300-34
304.05 Subgrade and Pipe Bedding	300-34
304.06 Dewatering Trenches	300-35
304.07 Backfilling	300-36
304.08 Stream Crossings	300-37
304.09 Casing for Sanitary Sewers	300-38
304.10 Bracing, Sheeting, and/or Shoring	300-38
304.11 Location and Protection of Existing Underground Utilities	300-38
304.12 Connection to the Existing BLW Sanitary Sewer System	300-39
304.13 Street Cuts	300-39
304.14 Standard Detailed Drawings	300-40
304.15 Clean-Up	300-40
304.16 Barricades	300-41
304.17 Grassing	300-41
305. Inspection and Tests	300-42
305.01 General	300-42
305.02 Concealed Work	300-42
305.03 Minimum Tests	300-42
305.04 Timing of Service Connections	300-46
306. Pre-Treatment Requirements for Industrial Wastewater	300-46
307. Other Requirements	300-46

SECTION 400 - STANDARD DETAILED DRAWINGS

STANDARD DETAIL NO.

401.	Water System Details	
	Typical Water Main at Cul-De-Sac	401-01
	Typical Fire Hydrant Installation	401-02
	3/4" Water Meter Location (For Subdivisions)	401-03
	Subdivision Water Meter Location	401-04
	3/4" Meter Installation	401-05
	1" Residential Meter Installation	401-05.1
	1" – 1 1/2" Commercial Meter Installation	401-05.2
	2" Commercial Meter Installation	401-05.3
	Compound Meters and Vault	401-06
	Detector / Water Meters and Vault	401-07
	Water A & V Release Valve Assembly	401-08
	Typical Road Crossing	401-09
	Concrete Blocking Detail	401-10
	Concrete Thrust Collar	401-11
	Concrete Valve Marker	401-12
	Blow-Off Assembly	401-13
	Water Valve Box Grade Adjustment	401-14
	Typical Valve Installation	401-15
402.	Sanitary Sewer System Details	
	Precast Concrete Manhole	402-01
	Precast Concrete Doghouse Manhole	402-01A
	Standard Vented Manhole	402-02
	Shallow Manhole Detail	402-03
	Standard Manhole Plans	402-04
	Manhole Step	402-05
	Standard Manhole Frame & Cover	402-06
	Manhole Frame - Grade Adjustment	402-07
	Sewer Service Lateral	402-08
	Sewer Service Location Detail	402-09
	Cleanout Detail	402-10
	Concrete Encasement	402-11
	Typical Pipe Adapter	402-12
	Sewer Pipe Anchor (Slopes 20% or More)	402-13
	Pipe Class 'A' Bedding	402-14
	Pipe Class 'B' Bedding	402-15
	Pipe Class 'C' Bedding	402-16
	Minimum P.V.C. Pipe Bedding Detail	402-17
	Sewer Casing Spacer Detail	402-18
	Dumpster Pad Detail	402-19
	Grease Trap	402-20
403.	General Details	
	Typical Street Cut Repair	403-01
	Typical Driveway Cut Repair	403-02
	Fence and Gate Detail	403-03
